

Bone Meal

Root Builder

This slow-release, long-lasting plant food, containing precious bone meal, is ideal for vegetables, fruit, flowers, roses, shrubs and trees:

- Phosphate promotes vigorous root growth and helps establish new plants quickly
- Nitrogen encourages strong growth and healthy, lush green foliage
- Organic matter naturally encourages micro-organisms to improve the soil fertility and structure
- Apply directly from the pack

How to use

During soil preparation/planting time sprinkle evenly over the soil and mix in well. Can also be added to planting compost and mixed in well. During dry weather, water well after sowing seeds and planting out.

During the growing season sprinkle evenly over the soil around established plants. Gently work it into the soil surface with a hand fork or hoe without disturbing the plant roots and water in thoroughly.

When to use

Miracle-Gro® Bone Meal Root Builder can be applied prior to sowing or planting and whenever needed throughout the growing season.

For established plants and plants in containers apply at the start of the season and re-apply 1-2 times to stimulate flowering, fruit formation or fruit ripening, when plants are actively growing. Sprinkle around plants, fork in and water in well.

For new plants fork into the bottom of the planting hole and add to the compost and soil used as a planting mixture. Water in well.

Vegetable plots, beds and borders apply by forking into the soil at the start of the season before planting.

Remember plants also require other nutrients like nitrogen and potassium. Use this product in combination with manure or a complete fertiliser like Miracle-Gro® Growmore.

Use	Application Rate
New plantings shrubs/trees	25-75 g per plant
During the growing season	75-100 g per sq m
Vegetable garden: leguminous plants	75-125 g per sq m or 75 g for every m of plant/tree/bush

Coverage: 12-60 sq m

1.5 kg e

We recommend you always wear gloves when gardening.

The UK's best selling branded compost!

Miracle-Gro® All Purpose Enriched Compost

- Grows plants twice as big as ordinary garden soil
- Enriched with Miracle-Gro® plant food
- Feeds for up to 3 months
- 40% more nutrients than ordinary compost
- Special water retaining agent – helps to stop plants drying out and makes watering easier

UK Fertiliser Declaration

Compound Fertiliser NPK 5 - 10 - 0

Total Nitrogen (N)	5%
Phosphorus Pentoxide (P ₂ O ₅) total	10% (4.3%P)
Phosphorus Pentoxide (P ₂ O ₅) soluble in water	0% (0%P)

RoI Fertiliser Declaration

Compound Fertiliser containing Organic Material
NPK Compound Fertiliser 5 - 4.3 - 0

Total Nitrogen (N)	5%
Ureic nitrogen	1.3%
Phosphorus (P) soluble in water	0%
Phosphorus (P) soluble in mineral acids only	4.3%

General advice

- Only use where there is a recognised need to feed plants.
- Keep away from plant leaves and stems.
- Do not exceed the appropriate application rate. Increasing the dosage may result in damage to your plants.
- Store in the original container in a cool, dry, frost-free place away from children, pets and foodstuffs.
- Wash hands and exposed skin after use.
- Do not eat or smoke while applying the product.
