How to use

During soil preparation/planting time sprinkle evenly over the soil and mix in well. During dry weather, water well after sowing seeds and planting out.

During the growing season sprinkle evenly over the soil around established plants. Gently work it into the soil surface with a hand fork or hoe without disturbing the plant roots and water in thoroughly.

When to use

Miracle-Gro® Soil Enricher can be applied prior to sowing or planting and as needed throughout the growing seasons.

For established plants & plants in containers apply every 4-6 weeks during the growing season, from March to the end of August, when plants are actively growing. Water in well afterwards.

Soil preparation & new plants apply at any time you are preparing new beds and borders, 7-10 days before sowing or planting.
