

Superphosphate

Fruit & Vegetable Ripener

Ideal for all plants, especially trees, shrubs, fruit and root vegetables
Provides a fast acting and long lasting source of phosphorus

- Encourages strong, healthy root growth and quick plant establishment
- Produces more fruit and vegetables and improves ripening of plants
- Works for several weeks
- Especially useful for planting out trees and shrubs or in the vegetable garden for leguminous plants, potatoes and fruit trees
- Apply directly from the pack

How to use

During soil preparation /planting time sprinkle evenly over the soil and mix in well. During dry weather, water well after sowing seeds and planting out.

During the growing season sprinkle evenly over the soil around established plants. Avoid touching the plants. In case of contact with plants rinse the plant to remove the fertiliser. Gently work it into the soil surface with a hand fork or hoe without disturbing the plant roots and water in thoroughly.

When to use

Miracle-Gro® Superphosphate Fruit & Vegetable Ripener whenever you're preparing new beds, when planting out new and young plants and around established plants during the growing season.

For established plants and plants in containers apply during the growing season, from March to the end of August, when plants are actively growing. Water in well.

For new plants fork into the bottom of the planting hole and add to the compost and soil used as a planting mixture. Water in well.

Soil preparation apply at any time you are preparing new beds and borders.

Remember plants also require other nutrients like nitrogen and potassium. Use this product in combination with manure or a complete fertiliser like Miracle-Gro® Growmore.

Use	Application Rate
Soil preparation/planting time	75 g per sq m
During the growing season	50 g per sq m
Vegetable garden: leguminous plants	50-70 g per sq m
Vegetable garden: Potatoes	50-90 g per sq m
Fruit trees	60-90 g per sq m

Coverage: 16-30 sq m

1.5 kg e

We recommend you always wear gloves when gardening.

Causes serious eye irritation.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing. If eye irritation persists get medical advice. Wear eye protection.

UK Fertiliser Declaration

EC FERTILISER Single superphosphate 18

Phosphorus Pentoxide (P ₂ O ₅)	18%
soluble in neutral ammonium citrate	16.7%
Water soluble (P ₂ O ₅)	

RoI Fertiliser Declaration

EC FERTILISER Single superphosphate 7.9

Phosphorus (P)	7.9%
soluble in neutral ammonium citrate	7.3%
Water soluble Phosphorus	

General advice

- Only use where there is a recognised need to feed plants.
- Keep away from plant leaves and stems.
- Do not exceed the appropriate application rate. Increasing the dosage may result in damage to your plants.
- Store in the original container in a cool, dry, frost-free place away from children, pets and foodstuffs.
- Wash hands and exposed skin after use.
- Do not eat or smoke while applying the product.
