

Sulphate of Potash Natural Fruit & Flower Enhancer

- ✓ Ideal for all flowering and fruiting plants, especially shrubs, climbers & roses
- ✓ Provides a fast acting source of potassium
- ✓ Encourages abundant flowering and fruiting
- ✓ Improves disease, cold weather & drought resistance
- ✓ Works for several weeks
- ✓ Apply directly from the pack

How to use

During soil preparation/planting time sprinkle evenly over the soil and mix in well. During dry weather, water well after sowing seeds and planting out.

During the growing season sprinkle evenly over the soil around established plants. Gently work it into the soil surface with a hand fork or hoe without disturbing the plant roots and water in thoroughly.

When to use

Use Miracle-Gro® Sulphate of Potash Fruit & Flower Enhancer whenever you're preparing new beds, when planting out new and young plants and around established plants during the growing season.

Apply in spring and reapply once in the growing season to stimulate flowering or fruit formation.

Remember plants also require other nutrients like nitrogen and phosphorus. Use this product in combination with a NP fertiliser like Miracle-Gro® Bone meal or a complete fertiliser like Miracle-Gro® Growmore.

Use	Application Rate
Flower beds & borders	35g per sq m
Roses & bushes	35g per sq m
Trees including fruit trees	50-125g per tree
Vegetable garden: salad/spinach	35g per sq m
Vegetable garden: cabbage/potatoes	75g per sq m

As a guide, one closed handful is approximately 25g.

Coverage: 20-42 sq m

1.5kg e

We recommend you always wear gloves when gardening.

General advice

- ✓ Only use where there is a recognised need to feed plants.
- ✓ Keep away from plant leaves and stems.
- ✓ Do not exceed the appropriate application rate. Increasing the dosage may result in damage to your plants.
- ✓ Store in the original container in a cool, dry, frost-free place away from children, pets and foodstuffs.
- ✓ Wash hands and exposed skin after use.
- ✓ Do not eat or smoke while applying the product.
