

Weedol[®] PS

PATHCLEAR[™]

WEEDKILLER

MAPP: 16535

WHY CHOOSE WEEDOL[®] PS PATHCLEAR[™] WEEDKILLER?

- ✓ **KILLS** existing weeds to the roots through systemic action.
- ✓ **PREVENTS** new weeds for up to 3 months by creating an invisible barrier.

INSTRUCTIONS FOR USE

FOR USE ONLY AS A HOME GARDEN WEEDKILLER

For use on natural surfaces not intended to bear vegetation, unwanted vegetation and permeable surfaces overlying soil.

READ ALL SAFETY INSTRUCTIONS BEFORE USE

WHEN TO USE

Use March - September, when weeds are small and actively growing.

Use on a dry day and do not apply in windy conditions.

Do not apply if rain is expected within 6 hours of application. Avoid treating in waterlogged conditions.

Apply to an area only once each year.

WHERE TO USE

Weedol[®] PS Pathclear[™] Weedkiller can be used to control weeds on gravel, paths, drives, patios, along fences and walls. It can also be used around established trees and shrubs; apply carefully making sure the product does not contact the foliage or trunk of these plants.

DO NOT use on impermeable surfaces or surfaces overlaid with impermeable material, such as concrete, tarmac, decking and paved areas, where the weedkiller solution might run off onto adjacent land, or into drains or gutters. Direct spray away from water.

HOW TO USE

SHAKE WELL BEFORE USE.

Always ensure the container is stored and carried upright when not spraying.

Mark out the area to be treated in metre squares. **Maximum individual dose:** 30 ml / 1 m².

1. Remove Power Sprayer from side clip. Unwrap plastic cover and dispose of safely. Unwrap hose completely. **Remove protective strip from battery compartment to activate batteries.**

2. **Insert red hose connector at end of hose into red receptor** in the bottle cap until it clicks. Raise the connector to vertical. This must remain up whilst spraying.

3. **Flip open Power Sprayer** until it locks into position. Twist nozzle at end of Power Sprayer to select the wide spray setting.

4. Point Power Sprayer away from body. **Ensure grey trigger lock is disengaged before spraying.**

5. Point spray head 50 cm from surface to be treated. **Hold trigger for continuous spray.** Lightly spray the weeds and surface in the area to be treated. Ensure weeds and soil are evenly wetted (on areas of dense or large weed cover, ensure the product makes contact with the soil, to prevent new weeds from germinating). Approximately 10 seconds are required to treat an area of 1 square metre.

6. After Use: Push hose connector down and squeeze the trigger to clear nozzle. Take care to avoid clearing the nozzle over plants that you want to keep. Twist nozzle to OFF position and engage trigger lock. Flip the wand closed and store on the side clip without disconnecting the hose.

Visible effects in 14 days. Weed death may take up to 28 days (in cold weather activity is slower). This pack treats 167 m². To achieve maximum persistence of weed control, do not disturb or cultivate treated soil.

CAUTION

Weedol[®] PS Pathclear[™]

Weedkiller kills all green plant growth and prevents seed germination. Avoid contact by spray and spray drift with cultivated plants and desired vegetation. To avoid transfer to lawns and other desired vegetation, do not walk into treated areas until the product has dried.

Maximum number of treatments: one per year.

DO NOT apply to cultivated areas or lawns unless you want to kill them. If an area needs to be cultivated allow at least 6 months between treatment/replanting and dig the soil well to reduce risk of damage to subsequent planting.

Where this or other products containing diflufenican are applied in successive years, diflufenican will build up in the soil. There is a risk of damage to subsequent plantings even if the soil is well dug.

SAFETY INSTRUCTIONS

TO AVOID RISKS TO HUMAN HEALTH AND THE ENVIRONMENT, COMPLY WITH THE INSTRUCTIONS FOR USE.

Protection during / in use

Keep off skin. Wash off splashes immediately. Wash hands and exposed skin after use. If medical advice is needed, have product container or label at hand. Do not eat, drink or smoke when using this product. Keep children and pets away from treated areas until spray has dried.

Environmental protection

Use appropriate containment to avoid environmental contamination. Do not contaminate water with the product or its container. Do not empty into drains. Direct application away from ponds and other surface water bodies. Do not apply in windy conditions to avoid spray drift onto other plants.

Storage and disposal

Keep out of reach of children. Keep away from food, drink and animal feeding stuffs. Keep product away from children and pets. **KEEP IN ORIGINAL CONTAINER**, tightly closed, in a safe place. Do not re-use container for any other purpose and dispose of safely. **Container:** Dispose of contents/container to a household waste recycling centre as hazardous waste except for empty containers which can be disposed of by recycling. Contact your local council for details.

Power Sprayer: Before disposing rinse the Sprayer through with water and dispose of at a local amenity recycling site.

Toxic to aquatic life with long lasting effects.

Replacing the batteries:

Open battery compartment at the bottom of Power Sprayer, remove the used batteries and dispose of safely. Replace with four new AA batteries in the correct position as marked inside the battery compartment. Securely close battery compartment door. Never mix alkaline, carbon-zinc or rechargeable batteries.

Contains 3.6 g/L glyphosate and 0.576 g/L diflufenican as a ready to use formulation (AL).

PROTECT FROM FROST
