

azalea, camellia & rhododendron

continuous release
plant food

How to use

Plant type	Dosage
Established plants	Evenly sprinkle 75g around the base of the plant. Lightly work into the soil. Water thoroughly
New plants	Evenly sprinkle 75g of granules over the planting area. Lightly work into the soil prior to planting. Water thoroughly

USEFUL
TIPS

- As a guide one handful of granules is approx 25g.
- Avoid over watering or allowing plants to dry out as this can cause damage to the roots.

We recommend you always wear gloves when gardening.
