### WHAT IS ROUNDUP GEL?

- Roundup Gel is a multi-purpose weedkiller that kills annual and deep rooted perennial weeds.
- Including grasses, dandelions, docks, nettles, ground elder, bindweed and thistles.
- It is broken down by soil micro-organisms to leave the soil ready for replanting.

### WHAT TO EXPECT FROM ROUNDUP GEL

- Roundup Gel will kill most common garden weeds with a single application when applied according to the instructions.
- The first effects may be seen between 5 to 10 days, depending on the type of weed and the weather conditions. Roundup will work more slowly in cooler and dry conditions and on larger perennial weeds.
- Root kill can take from 7 to 28 days, again dependent on the type of weed and the weather conditions.

### WHEN TO USE:

- Apply at any time when the weeds are green and growing and have adequate leaf area.
- Treat established perennial weeds at the start of flowering to give best results.
- Apply on nettles and ground elder when new leaves have unfolded fully in late spring.
- Leave treated weeds 7 days before digging or soil cultivation, for the weedkiller to move to the roots.
- Repeat application if necessary, should new growth appear.

### RESTRICTIONS:

- Avoid contact with cultivated plants and desired vegetation.
- To avoid transfer to lawns and other desired vegetation do not walk into treated areas until the product has dried.
- Do not re-use the empty bottle.
- Rain within 6 hours of application reduces effectiveness and repeat treatment may be necessary.
- Keep children and pets out of the treated area until the Roundup has dried.

### INSTRUCTIONS FOR USE

#### TO OPEN :

- 1 Squeeze the 2 blue cap lips at the side of the bottle and lift the cap.
- 2 Remove the foil seal.
- 3 Push/click the blue button to release the gel.
- 4 Before first use, prime the GEL bottle by pressing the blue button around 20 times until GEL appears at the top of the bottle.

#### HOW TO USE :

- 5 Touch or wipe the leaf surface. There is no need to apply to the whole leaf surface.
  - 6 Apply to about 30% of the weed's leaves.
- 1 click should treat 2 small annual weeds each about the size of a post card [10cm x 15cm]
  - 2 clicks should treat 2 small perennial weeds each about the size of a post card [10cm x 15cm]

#### AFTER USE :

Clean the gel from the blue applicator top by wiping on a weed leaf, before securely replacing the blue cap by aligning both blue side lips at the same time.
