

# Special Blend of Organic Nutrients

Levington® Essentials Top Soil is a blended topsoil as used by many traditional gardeners.

Through a wealth of knowledge gained over 50 years of research, we have developed a unique combination of ingredients for Levington®.

## Made with Loam - Enriches Poor Soil

Levington® Essentials Top Soil is a rich, fertile loam-based soil with a high content of organic matter. It is ideal for making raised beds where existing soil is poor or for replacing soil that is tired or unsuitable for the re-planting of related plants. It can be used as a component of soil/loam based type composts.

It is ideal for:

- Creating new beds and borders
- Replacing old soil
- Levelling lawns
- Making compost

## Our commitment to sustainability

Did you know that you're part of one of the World's largest recycling efforts?

Each year, Scotts Miracle-Gro reuses thousands of tonnes of material from gardens and forests in many of our compost mixes, to help you grow plants that enhance your environment and make the World more beautiful.

## Premium Guarantee

If you are not completely satisfied with the performance of this product we offer you your money back.

Weed free at the point of manufacture. When mixed with garden soil weeds may appear.

# 35 litre

when filled

Volume may reduce by up to 10%\*

### Health and Safety Advice:

- Use in a well ventilated place and avoid breathing in dust.
- Always wear gloves when gardening and then wash hands after use.

## Where to Use:

### Beds and Borders

Use Levington® Essentials Top Soil straight from the bag to build up beds and borders. Dig in this fertile blend to enrich your tired existing soil with its high organic matter content.

No lime has been added to Levington® Essentials Top Soil and it is suitable for improving the soil around Rhododendrons, Azaleas, Heathers and other ericaceous plants.

### Replacing Sick Soil

Soil in greenhouses that has developed a build-up of pests and diseases or soil that has grown roses or strawberries for a number of years may need replacing if new plants are to establish. Use Levington® Essentials Top Soil to introduce a fresh, fertile soil in which plants can thrive.

### Levelling Lawns

Use Levington® Essentials Top Soil to produce a clean, level surface before sowing grass seed or laying turf or for filling in hollows in established lawns.

### Making Composts

Due to its high organic matter content, this top quality soil is ideal for mixing with base dressings to make a loam-based compost. To enrich it add Miracle-Gro Slow Release Plant Food granules at the rate

of 25g per 10 litres of soil. For alpiners and other plants that need increased drainage, add 1 part coarse grit or washed sharp sand to 3 parts of Levington® Essentials Top Soil.
