

# Moisture Control™

## Enriched Compost – Pots & Baskets

Miracle-Gro Moisture Control's special formula contains Smart Release Feed granules providing complete nutrition for healthy growth and beautiful blooms for up to 6 months.

The continuous feeding granules have a unique coating so the plant food is only released when it is warm and moist. This is when plants are actively growing and need it most.

Perfect for use in hanging baskets, pots and containers.

Exclusive **Aquacoir®** formula stores and releases water when plants need it to take the guesswork out of watering. Special water retaining agent absorbs **TWICE** as much water as ordinary multipurpose compost. Helps stop your plants drying out and makes watering easier.

### Grows plants **twice** as big... guaranteed!\*\*

Ordinary garden soil

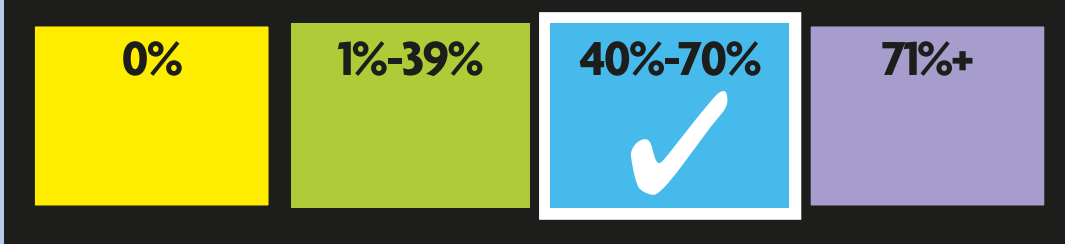

Miracle-Gro Moisture Control Enriched Compost - Pots & Baskets

\*\* Trials prove that Miracle-Gro Moisture Control Enriched Compost - Pots & Baskets grows plants twice as big as ordinary garden soil.

† Absorbs twice as much water as ordinary compost.

#### HOW MUCH PEAT IN THIS PRODUCT?

### How to use

#### Hanging baskets

Line the basket, if required with moss or other liner.

Part fill basket with compost.

Plant trailing plants around the baskets edge and upright plants in the centre.

Fill the rest of the basket with compost, firm lightly and water thoroughly.

#### Pots and containers

Place a layer of compost in the base of the pot.

Tap out the plant from the old pot, loosen the root ball and place in the centre of the pot.

Fill the space around the root ball, ensuring the compost level covers all the roots.

Firm lightly, water thoroughly and let drain.

### Useful tips

- For continued fantastic results with the hungriest plants we recommend that you begin feeding with Miracle-Gro plant food as soon as the leaves begin to pale.
- Plants vary in their requirements for light. Refer to plant tags for specific sun or shade needs.
- Compost should be kept moist at all times and not allowed to dry out. Avoid plants sitting in water. Outdoor container plants require frequent watering.

### Storage

- Keep the bag closed when in storage to prevent drying out.
- Storage from one year to another may affect performance.
- Keep away from pesticides.
- Occasionally a white mould appears on the compost. This is not harmful to your plants and should disappear naturally.

### Our commitment to sustainability

Did you know that you're part of one of the world's largest recycling efforts?

Each year, Scotts Miracle-Gro reuses thousands of tonnes of material from gardens and forests in many of our compost mixes, to help you grow plants that enhance your environment and make the world more beautiful.

We recommend you always wear gloves when gardening.
