

HOW TO USE

Our planter is great for growing fruit & veg and works best if you follow these simple steps:

1. Choose a sheltered sunny spot - it will be difficult to move the planter later.
2. Give the bag a shake
3. Some plants need more personal space than others. Use the usage table to judge how close yours will want to get
4. Cut along the dotted lines to open up the top but be careful not to cut through to the bottom
5. To plant, remove enough compost to make room for the roots of your plant. Place the plant into the hole, cover the roots back with the compost and firm lightly around the plant.
6. Soak the soil using about 4.5 litres of water and make sure it is kept moist

ORGANIC PLANTER

for growing big and healthy fruit & veg

USAGE TABLE

Certain plants like their personal space. Use the table below to judge how close yours like to get.

| CROP | PLANTS PER BAG |
|---|-------------------|
| TOMATOES, PEPPERS, CHILLIES are pretty friendly | 2 |
| STRAWBERRIES like to get cosy | 4 |
| COURGETTE & CUCUMBERS like their space! | 1 |

For delicious homegrown fruit & veg in abundance, enrich your plants using the **ORIGINS® ORGANIC PLANTER**.

We've added nutrients and rich organic matter to give your plants everything they need to thrive in a small space. Blended with wood fibre and aged bark which keeps roots and plants healthy and happy.

HINTS & TIPS

To get the best tomatoes, only plant after the first flower opens.

Train your plants to fan out so that they receive lots of light and air.

When your first fruits show give them a little boost with **ORIGINS® ORGANIC PLANT FOOD**.

STORAGE & HANDLING

Store in a cool dry place away from sun.

Open bags carefully.

Use in a well ventilated place and avoid breathing in dust.

Always wear gloves when gardening and then wash hands after use.

We've got lots of lovely products in the range which will help your garden flourish. Learn more at WWW.ORIGINSGARDEN.CO.UK

Organic Farmers & Growers is one of the UK's leading organic certifiers, working with producers and processors to ensure their products meet the highest organic standards.
