

# Stronger, healthier plant growth

Levington® John Innes formula composts are based on a traditional mixture of loam, peat and washed and graded horticultural grit. Levington® John Innes No.3 compost has a specially balanced nutrient mix ideally matched to the needs of mature plants.

## John Innes composts

John Innes composts were developed in the 1930s. Various formulas exist depending on the use of the compost. The composts have been specially designed to ensure the ideal air and water holding capacity and nutrient content for different kinds of plants.

The following Levington® John Innes composts are available:

**Levington® John Innes No. 1**  
For seedlings, young plants, cuttings & plug plants.

**Levington® John Innes No. 2**  
For general repotting.

**Levington® John Innes No. 3**  
For final repotting of mature plants.

**Levington® John Innes Seed**  
For seed sowing & rooting cuttings.

This pack fills approximately:

10

small pots  
12cm (5")

or

2

medium pots  
22cm (9")

## Growing on

This Levington® John Innes No. 3 compost provides all of the necessary food for up to 6 weeks. After that time, water with Miracle-Gro® All Purpose Soluble Plant Food.

# How to use

Use the compost directly from the bag. Do not mix with other materials. Firm only lightly.

## Potting on plants

Re-potting is best done in the spring, when plants are actively growing. Before re-potting, water plants well and allow to drain.

1. Put fresh compost in the bottom of a new pot.
2. Turn the old plant upside down and tap pot sharply to release.
3. Place the plant in the middle of the new pot and add more compost, firming lightly around the rootball.
4. Leave a space of at least 1cm below the pot rim to allow adequate space for watering
5. Water the plant well.

## Storage

Keep the bag closed in storage to prevent drying out. Store in a cool, dry, frost free place, away from sun. Storage from one year to another may affect performance.

## Health and safety advice

Open bags carefully and reseal after use. Use in a well ventilated place and avoid breathing in dust. Always wear gloves when gardening and then wash your hands after use.

## Our commitment to sustainability

Each year, we reuse thousands of tonnes of material from gardens and forests in many of our compost mixes, to help you grow plants that enhance your environment and make the world more beautiful.

## Premium guarantee

If you are not completely satisfied with the performance of this product we offer you your money back.
