Potting Mix

Root Boosting Compost

Grows plants
twice as big...
guaranteed!**

Ordinary garden soil

Miracle-Gro® Potting Mix Root Boosting Compost

Miracle-Gro® Potting Mix's special formula contains Root Growth Feed. It provides the optimum balance of nutrients to encourage healthy root development.

This gives a quick boost for your plants to get them off to the best start.

It also contains a balanced feed for long term establishment and beautiful blooms.

Ideal for houseplants, seedlings, herbs, cuttings, patio pots and containers.

Miracle-Gro® compost contains a unique and revolutionary Fibresmart Technology.

The hollow wood fibres are 100% natural and peat free giving a perfect texture for super drainage. This ensures the optimum balance of air and water for strong roots to grow healthy, beautiful plants.

How to use

Pots and containers

Place a layer of compost in the base of the pot.

Tap out the plant from the old pot, loosen the root ball and place in the centre of the pot.

Fill the space around the root ball, ensuring the compost level covers all the roots.

Firm lightly, water thoroughly and let drain.

Useful tips

- For continued fantastic results with the hungriest plants we recommend that you begin feeding with Miracle-Gro® All Purpose Soluble Plant Food as soon as the leaves begin to pale.
- Plants vary in their requirements for light. Refer to plant tags for specific sun or shade needs.
- Compost should be kept moist at all times and not allowed to dry out. Avoid plants sitting in water. Outdoor container plants require frequent watering.
- A potted plant should be repotted annually with fresh Miracle-Gro® Potting Mix.
- Move your plants into a larger container of fresh Miracle-Gro® Potting Mix when roots completely fill the pot.

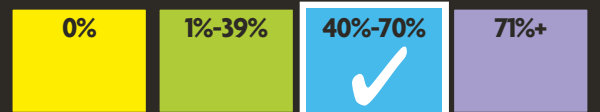

Storage

- Keep the bag closed when in storage to prevent drying out.
- Store in a cool dry place away from sun.
- Storage from one year to another may affect performance.
- Keep away from pesticides.
- Occasionally a white mould appears on the compost. This is not harmful to your plants and should disappear naturally.

Health and safety advice

- Open bag carefully and reseal after use.
- Use in a well ventilated place and avoid breathing in dust.
- Always wear gloves when gardening and then wash hands after use.

HOW MUCH PEAT IN THIS PRODUCT?

Our commitment to sustainability

Each year, we reuse thousands of tonnes of material from gardens and forests in many of our compost mixes, to help you grow plants that enhance your environment and make the world more beautiful.
