2 in 1 Lawn Seed & Feed

A 2 in 1 Lawn Repair Kit containing Multi Purpose Lawn Seed and Feed.  
Ideal for improving thin, patchy areas and treating bare spots.

**1** HIGH PERFORMANCE  
MULTIPURPOSE  
LAWN SEED

**2** LAWN  
FERTILISER

**THICK, HEALTHY  
LAWN**

## INSTRUCTIONS FOR USE

### Rake

Rake the area to remove all weeds, stones or dead grass. If over-seeding ensure you mow the grass short first.

### Shake

Shake the box to mix the seeds. Apply a small handful (approx 20g) per square metre to overseed thin areas or a large handful (approx 30g) for bare patches. Create a criss-cross pattern by sowing half the seed from left to right and the rest from top to bottom. Gently rake in, then lightly cover the area with Miracle-Gro® Lawn Dressing. Level and firm by treading the soil.

### Water

Soak with a fine spray and keep soil moist for the next few weeks.

### When will I see the results?

In ideal conditions when the soil is moist, grass will start to appear from 5 days. In less favourable conditions allow 10-14 days. Existing grass will become greener in 7 days.

### When do I use it?

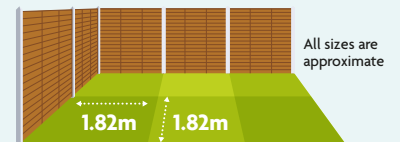

Apply to your lawn during March to early October once frost has passed.

### How much will I need?

This pack will create a new lawn of 20m<sup>2</sup> (5m x 4m).

To determine the size of your lawn multiply the length by the width in metres.

Alternatively a lawn with 2 by 3 standard fence panels (1.82m width), will cover approx 20m<sup>2</sup>.

### \*Aftercare for a thicker, healthier lawn

#### Mowing

The grass can be trimmed when 5-8cm.

Each time you mow, lower blade height a level until it's at 3cm. Do not cut more than 1/3 off the growth at any one time.

#### Feeding

Feed your lawn on a regular basis to ensure it is kept healthy.

#### Children and pets

It's fine to use this product in gardens with children and pets, but little feet can damage developing seeds, so it's best to keep them off the treated areas until the grass has established.

Watersmart grass technology  
grows strong roots for  
optimum absorption of water  
and nutrients

GERMINATION\***

## Fertiliser Declaration

### EC FERTILISER

**NPK Fertiliser containing Magnesium 8-12-8 (3.3) (8-5.2-6.7 (2.0)):**

Nitrogen (N) total	8.0%
Ammoniacal Nitrogen (N)	8.0%
Phosphorus pentoxide (P <sub>2</sub> O <sub>5</sub> ) soluble in neutral ammonium citrate and in water	12.0% (5.2%P)
Phosphorus pentoxide (P <sub>2</sub> O <sub>5</sub> ) soluble in water	9.0% (3.9%P)
Potassium oxide (K <sub>2</sub> O) soluble in water	8.0% (6.7%K)
Magnesium oxide (MgO)	3.3% (2.0%Mg)

\* Trials have proved that Miracle-Gro® grass seed germinates 50% faster than some other commercial grass seeds.
