

EVERGREEN® Complete 4 in 1

Lawn Food, Weed & Moss Control

MAPP No: 15455

Different name
Same trusted
quality!

INSTRUCTIONS FOR USE

FOR USE ONLY AS A HOME GARDEN LAWN TREATMENT. Read all safety instructions before use.

When and where do I use it?

For use on lawns, anytime between April and September, when weeds are actively growing. Apply when the weather is fair, the soil moist, the grass dry and frost free.

When will I see results?

Your lawn will become a richer colour. You will see the moss blacken as it dies (any blackening of the grass is only temporary).

Scarify (rake) vigorously after 2 weeks to remove dead moss; the grass will then re-establish. Some weeds will grow quickly at first and then become twisted prior to dying. Full weed control will take 3-5 weeks.

How do I use it?

1. Press down the yellow spout and slide back the green overcap.
2. Flip the spout over.

3. Walking at a brisk pace of 1.5m/second, invert the dispenser so that the spout points towards the ground and the granules flow freely.

Maintain the spout at a comfortable height off the ground (at least 45cm). Spread across the lawn area in even strips. Avoid overlapping. When you stop walking raise the spout to stop the flow of granules.

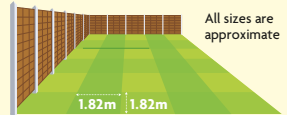

Maximum individual dose: 35g of product per square metre.

How much will I need?

This pack treats 100m² (10m x 10m).

To determine the size of your lawn multiply the length by the width in metres. Alternatively a lawn with 6 by 5 standard fence panels (1.82m width), will cover approx 100m².

To refill

With the spout folded out in the spreading position, gently twist and lift off the entire spreader head. Refill, and replace the head securely before re-using.

PRECAUTIONS

Do not use on new lawns. EverGreen® Complete 4 in 1 should not be applied to lawns less than 6 months old. Avoid drift onto nearby plants and borders. Do not apply during prolonged dry periods (drought), frosty weather or when heavy rain is imminent.

Re-seeding of bare patches should not be carried out until 8 weeks after treatment.

Maximum of 2 applications per year with a 3 month interval between treatments.

TREES AND BULBS: EverGreen® Complete 4 in 1 can be used around trees in the lawn, but avoid contact with the foliage. EverGreen® Complete 4 in 1 can be applied where bulbs are growing in the lawn, provided it is applied after all the bulb foliage has died down naturally.

MOWING: Avoid mowing the lawn for 2-3 days before and after treatment.

WATERING-IN: If no rain falls within 2 days, water the lawn thoroughly so that the lawn food starts to work.

DISPOSAL OF LAWN CLIPPINGS: Do not use the first 4 mowings after treatment for mulching. They will be safe to use after being thoroughly composted for 6 months.

STAINING: Do not walk on treated areas until it has rained or EverGreen® Complete 4 in 1 has been watered in and dried. Since iron sulphate can cause stubborn brown stains on clothes, paving slabs etc. Clean up any spillages immediately and dispose of safely.

UK fertiliser declaration

EC FERTILISER

NK fertiliser 14-5:

Nitrogen (N) total	14.0%
Ammoniacal Nitrogen (N)	10.9%
Ureic Nitrogen (N)	3.1%
Potassium oxide (K ₂ O) soluble in water	5.0%

EverGreen® Complete 4 in 1 contains 0.49% w/w MCPA, 0.29% w/w mecoprop-P and 16.3% w/w iron sulphate (anhydrous) as a granular formulation (GR).

What about children and pets?

Keep children and pets away from treated areas until granules have been watered in

SAFETY INSTRUCTIONS

TO AVOID RISKS TO HUMAN HEALTH AND THE ENVIRONMENT, COMPLY WITH THE INSTRUCTIONS FOR USE

Protection during / in use

- Read label before use.
- Wash hands thoroughly after handling.
- If medical advice is needed, have product container or label at hand.
- Do not breathe dust.
- Do not eat, drink or smoke when using the product.
- Avoid contact with eyes.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get medical advice/attention.
- Wear protective gloves.

Other general protection

- Contains mecoprop-P. May produce an allergic reaction.

Environmental protection

- Do not contaminate water with the product or its container.
- Do not empty into drains.

Storage and disposal

- KEEP OUT OF REACH OF CHILDREN.
- Keep away from food, drink and animal feeding stuffs.
- KEEP PRODUCT IN ORIGINAL CONTAINER, tightly closed, in a safe place.
- Dispose of contents / container to a licensed hazardous-waste collection site except for empty containers which can be disposed of in the dustbin. Contact your local council (local authority) for details.

Warning
Causes serious
eye irritation.
