**MOWING:** You should avoid mowing the lawn for 2-3 days before and after treatment, or until after rainfall or irrigation.

**WATERING-IN:** For performance purposes, it's advisable to water in after application, especially if the weather is hot and dry and the lawn is under stress.

**STAINING:** Iron Sulphate can cause brown stains on clothes, paving slabs, etc. Water product in before walking on the lawn to avoid staining. Brush off immediately if spilt.
