

EVERGREEN® Fast Green

Lawn Food

INSTRUCTIONS FOR USE

When to apply

- ✓ Between March to September
- ✓ Weather is fair
- ✓ Soil is damp
- ✓ Grass is dry & frost free

DO NOT APPLY

- On a lawn less than 6 months old.

What happens next

- ✓ Lawn is richer & greener in 3 days

How much to use

MAX 35g 1m² Maximum individual dose: 35g per square metre.

This pack treats 80m² (10m x 8m).

To determine the size of your lawn multiply the length by the width in metres. Alternatively a lawn with 5 by 5 standard fence panels (1.82m width), will cover approx 80m².

All sizes are approximate

After care

1. Water in after application. Especially when weather is hot, dry & the lawn is under stress.
2. Mow the lawn after 3 days. For best results continue to mow on a regular basis.
3. Reapply this product after a minimum of 6 weeks, if needed.
*A repeated application will help create a thicker, healthier lawn.
4. We recommend applying this product 3 months after using Miracle-Gro Evergreen Complete 4 in 1, for a thick, green, moss and weed free lawn.
5. Once opened, store in a dry place out of reach of children and pets.

ADVICE

MOWING: You should avoid mowing the lawn for 2-3 days before and after treatment.

STAINING: This product contains iron sulphate and will cause staining. Do not walk on treated areas until the product has been watered in and dried. Avoid contact with clothing, tarmac, driveways, paving, decking and kitchen floors. This list is not exhaustive. Sweep up any spillages immediately and dispose of safely.

REFILL PACK WITH

How to apply

1. Press down the yellow spout and slide back the green overcap.
2. Flip the spout over.
3. Walking at a brisk pace of 1.5m/second, invert the dispenser so that the spout points towards the ground and the granules flow freely.

Maintain the spout at a comfortable height off the ground (at least 45cm). Spread across the lawn area in even strips. Avoid overlapping. When you stop walking raise the spout to stop the flow of granules.

How to refill

With the spout folded out in the spreading position, gently twist and lift off the entire spreader head. Refill, and replace the head securely before re-using.

Keep children and pets away from treated area until granules have been watered in and dried.

UK FERTILISER DECLARATION

NK fertiliser 16-5 with Iron (Fe):

Nitrogen (N) total	16.0%
Ammoniacal Nitrogen (N)	8.6%
Ureic Nitrogen (N)	7.4%
