INSTRUCTIONS FOR USE

FOR USE ONLY AS A HOME GARDEN LAWN TREATMENT.
Read all safety instructions before use.

When and where do I use it?

For use on lawns, anytime between April and September, when weeds are actively growing.

Apply when the weather is fair, the soil moist, the grass dry and frost free.

When will I see results?

Your lawn will become a richer colour. You will see the moss blacken as it dies (any blackening of the grass is only temporary).

Scarify (rake) vigorously after 2 weeks to remove dead moss; the grass will then re-establish. Some weeds will grow quickly at first and then become twisted prior to dying. Full weed control will take 3-5 weeks.

How do I use it?

MAX
35g

1m²

BY HAND

Apply at a maximum individual dose of 35g per square metre.

For a visual guide to the correct application rate, first spread the recommended amount over a small measured area. Areas for treatment must be marked out to ensure even application.

BY REFILLING

The EverGreen® Complete 4 in 1 DISPENSER PACK. Refer to the dispenser pack for full instructions.

BY SPREADER - Settings

EverGreen® Wizz™ Year-Round Spreader	5.25
EverGreen® Handy Spreader	3
(and then cover each area twice)	
EverGreen® Easy Spreader+	4.5
EvenGreen® Drop Spreader	6
EasyGreen® Rotary Spreader	27

How much will I need?

This pack treats 500m² (50m x 10m).

To determine the size of your lawn multiply the length by the width in metres.

Alternatively a lawn with 12 by 13 standard fence panels (1.82m width), will cover approx 500m².

All sizes are approximate

What about children and pets?

Keep children and pets away from treated areas until granules have been watered in

Different name
Same trusted quality!

Why is EverGreen® Complete 4 in 1 the best?

ALL IN ONE - Feeds, kills weeds & moss

HIGH NITROGEN - For a greener lawn in 7 days

HIGH POTASSIUM - For a thicker, tougher lawn

Makes the most of every drop!

EverGreen® Complete 4 in 1 helps build a thick, green lawn with stronger roots which better absorb water and nutrients. This helps protect your lawn against heat, drought and other stresses.

PRECAUTIONS

Do not use on new lawns. EverGreen® Complete 4 in 1 should not be applied to lawns less than 6 months old. Avoid drift onto nearby plants and borders. Do not apply during prolonged dry periods (drought), frosty weather or when heavy rain is imminent. Re-seeding of bare patches should not be carried out until 8 weeks after treatment.

Maximum of 2 applications per year with a 3 month interval between treatments.

TREES AND BULBS: EverGreen® Complete 4 in 1 can be used around trees in the lawn, but avoid contact with the foliage. EverGreen® Complete 4 in 1 can be applied where bulbs are growing in the lawn, provided it is applied after all the bulb foliage has died down naturally.

MOWING: Avoid mowing the lawn for 2-3 days before and after treatment.

WATERING-IN: If no rain falls within 2 days, water the lawn thoroughly so that the lawn food starts to work.

DISPOSAL OF LAWN CLIPPINGS: Do not use the first 4 mowings after treatment for mulching. They will be safe to use after being thoroughly composted for 6 months.

STAINING: Do not walk on treated areas until it has rained or EverGreen® Complete 4 in 1 has been watered in and dried, since iron sulphate can cause stubborn brown stains on clothes, paving slabs etc. Clean up any spillages immediately and dispose of safely.

SAFETY INSTRUCTIONS

TO AVOID RISKS TO HUMAN HEALTH AND THE ENVIRONMENT,
COMPLY WITH THE INSTRUCTIONS FOR USE

Protection during / in use

- Read label before use.
- Wash hands thoroughly after handling.
- If medical advice is needed, have product container or label at hand.
- Do not breathe dust.
- Do not eat, drink or smoke when using the product.
- Avoid contact with eyes.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get medical advice/attention.
- Wear protective gloves.

Other general protection

- Contains mecoprop-P. May produce an allergic reaction.

Environmental protection

- Do not contaminate water with the product or its container.
- Do not empty into drains.

Storage and disposal

- KEEP OUT OF REACH OF CHILDREN.
- Keep away from food, drink and animal feeding stuffs.
- KEEP PRODUCT IN ORIGINAL CONTAINER, tightly closed, in a safe place.
- Dispose of contents / container to a licensed hazardous-waste collection site except for empty containers which can be disposed of in the dustbin. Contact your local council (local authority) for details.

Warning
Causes serious eye irritation.

UK fertiliser declaration

EC FERTILISER

NK Fertiliser 14-5:

Nitrogen (N) total	14.0%
Ammoniacal Nitrogen (N)	10.9%
Ureic Nitrogen (N)	3.1%
Potassium oxide (K ₂ O) soluble in water	5.0%
EverGreen® Complete 4 in 1 contains 0.49% w/w MCPA, 0.29% w/w mecoprop-P and 16.3% w/w iron sulphate (anhydrous) as a granular formulation (GR).
