MOSS**

**STRONGER
ROOTS**

**TOUGHER
LAWN**

**WINTER
PROTECTION**

INSTRUCTIONS FOR USE

FOR USE ONLY AS A HOME GARDEN LAWN TREATMENT. Read all safety instructions before use. **This product does not include grass seeds.**

When to apply

- Between September to mid November.
- Weather is fair.
- Soil is damp.
- Grass is dry & frost free.
- To new lawns once the lawn is established (usually after 3 months).

DO NOT APPLY

- During prolonged dry periods or frosty conditions.
- When heavy rain is imminent.
- On a windy day to avoid drift into beds & borders.

What happens next

- Moss will blacken as it dies. Results will be visible in a few days (blackening of any grass is temporary).
- Lawn is greener in 7 days.

How much to use

**MAX
35g
1m²**

Maximum individual dose: 35g per square metre.
Maximum 2 applications a year.

This pack treats 100m² (10m x 10m).

To determine the size of your lawn multiply the length by the width in metres.

Alternatively a lawn with 6 by 5 standard fence panels (1.82m width), will cover approx 100m².

After care

- Water thoroughly the next day.
- Mow the lawn 3 days after treatment. For best results continue to mow on a regular basis.
- Rake out dead moss that has blackened after 2 weeks.
- Heavy infestations may need a repeat treatment in 6 weeks.
- Once opened, keep product in waterproof sealed container.

How to use

BY SPREADER - Settings

EverGreen® Wizz™ Year-Round Spreader	5
EverGreen® Handy Spreader	3 (and then cover each area twice)
EverGreen® Easy Spreader+	4.5
EverGreen® Drop Spreader	4.5 (and then cover each area twice)
EverGreen® Rotary Spreader	27

Handheld spreader is preset, prefilled, ready to use & can be refilled with this carton.

BY HAND

Wear protective gloves before hand application. First spread 35g over 1m² for a visual guide, then mark out your lawn for an even application. Visit lovethegarden.co.uk for further advice.

Keep children and pets away from treated area until granules have been watered in and dried.

ADVICE

WATERING IN: Make sure the lawn is watered thoroughly, so that the lawn food starts to work.

RAKING: Raking (or scarifying) the lawn in the Autumn will remove build up of dead material.

MOWING: Avoid mowing the lawn 2 days before and after treatment.

AERATING: Spiking your lawn with a fork, will help relieve compaction and is good for a poorly drained lawn. This will help prevent moss.

STAINING: This product contains iron sulphate and will cause staining. Do not walk on treated areas until product has been watered in and dried. Avoid contact with clothing, tarmac driveways, paving, decking and kitchen floors. This list is not exhaustive. Sweep up any spillages immediately and dispose of safely.

POISONS INFORMATION: For information, or to report a poisoning incident in Ireland contact The National Poisons Information Centre (01 8092166), retain the label for reference.
