Soluble in neutral ammonium citrate	4.6%
Potassium oxide (K ₂ O) soluble in water	10.0% (8.3%K)

EverGreen® Autumn Lawn Care contains 18.2% w/w iron sulphate (monohydrate) as a granular formulation (GR).

KILLS MOSS

STRONGER ROOTS

TOUGHER LAWN

WINTER PROTECTION

INSTRUCTIONS FOR USE

FOR USE ONLY AS A HOME GARDEN LAWN TREATMENT. Read all safety instructions before use.

When and where do I use it?

Apply between early September and mid November. Apply when the weather is fair, the soil moist, the grass dry and frost free.

For use on lawns. Only apply to new lawns once the lawn is established (usually after 3 months). **Maximum number of treatments per year: 2.**

When will I see results?

The moss in the lawn will blacken as it dies (any blackening of the grass is only temporary).

After 2 weeks the dead moss must be raked out thoroughly. Heavy infestations may need a repeat treatment, 6 weeks later.

How do I use it?

MAX 35g 1m² BY HAND

Apply at a maximum individual dose of 35g per square metre.

For a visual guide to the correct application rate, first spread the recommended amount over a small measured area.

Areas for treatment must be marked out to ensure even application.

BY REFILLING

The EverGreen® Autumn Lawn Food DISPENSER PACK. Refer to the dispenser pack for full instructions.

BY SPREADER - Settings

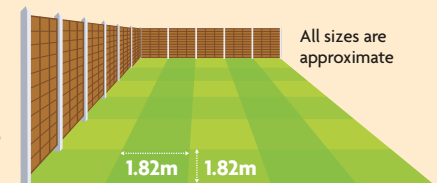

EverGreen® Wizz™ Year-Round Spreader	5
EverGreen® Handy Spreader	5.75
EverGreen® Easy Spreader+	4.5
EverGreen® Drop Spreader	3
EasyGreen® Rotary Spreader	27

How much will I need?

This pack treats 100m² (10m x 10m).

To determine the size of your lawn multiply the length by the width in metres.

Alternatively a lawn with 6 by 5 standard fence panels (1.82m width), will cover approx 100m².

All sizes are approximate

What about children and pets?

Keep children and pets away from treated areas until granules have been watered in

PRECAUTIONS

Do not walk on the lawn until EverGreen® Autumn Lawn Care has been watered in and dried, since iron sulphate can cause stubborn brown stains on clothes, paving slabs, etc. Brush off immediately if accidentally spilt.

Do not allow EverGreen® Autumn Lawn Care to come in contact with foliage of neighbouring vegetation.

Avoid drift onto flowerbeds and other neighbouring plants.

WATERING IN: If no rain falls within 2 days, water the lawn thoroughly so that the lawn food starts to work.

MOWING: Avoid mowing the lawn 2-3 days before and after treatment.

AUTUMN LAWN CARE ADVICE

AERATING: Spike your lawn in the autumn to aerate the soil and allow water to penetrate.

SCARIFYING: Raking (or scarifying) in the autumn will remove the build up of dead material.
