

Miracle-Gro®

PEAT FREE

PREMIUM Orchid Special Plants Compost

ROOTED IN SCIENCE

ORCHID FORMULA FREE DRAINING STRUCTURE

Large pieces of high quality pine bark produce a free draining structure for **healthy root growth**.

pH BALANCED FOR GLOSSY GREEN LEAVES

Special Plants Compost contains a special formula with low pH for shiny green leaves.

14 VITAL MINERALS NPK+TRACE ELEMENTS

Contains a unique combination of **14 Vital Minerals**. With **N-Nitrogen** for green, leafy growth. **P-Phosphorus** for root development. **K-Potassium** for abundant fruits and flowers. **+11 essential elements** vital for **maintaining plant health**.

APPROVED BY: Elaine G, R&D Manager.

HOW TO USE

RE-POTTING

Remove the plant from its existing pot. Divide the plant if appropriate.

Remove any dead roots. Select a new pot that is one size larger (or smaller for each division)

Cover the base of the pot with broken crocks or gravel.

Add a layer of Miracle-Gro Orchid Special Plant Compost. Place the Orchid in the pot so the crown is just below the rim.

Place more compost between and around the roots, tapping the pot to settle the compost.

Water thoroughly with clean, tepid rainwater. Support with a cane if necessary.

After re-potting place the Orchid in a shaded spot that is constantly humid. Most Orchids appreciate natural light, but not direct sunlight.

WATERING: Keep the compost moist, but not too wet using clean, tepid rainwater.

FEEDING: Start feeding after 4 weeks using Miracle-Gro Pump & Feed Orchid Plant Food and feed regularly during the growing season. Stop feeding completely during the winter.

WHAT TO GROW

...AND WHERE

✔ Ideal for Orchids.

✔ Perfect for use in pots, containers and hanging baskets.

RESPONSIBLE SOURCING AND RECYCLABILITY

We are actively working on improving the responsible sourcing profile of our compost mixes year on year. Miracle-Gro Compost contains forest by-products, carefully processed to help you grow plants that improve your environment and make the world a more beautiful place.

IDEAS ON RE-USING THIS BAG...

HANGING BASKET IDEA...

"You could add some drainage holes and use the bag as a liner for your hanging baskets."

GET GROWING...

"Make some drainage holes in the bottom of the bag, fill with compost and then plant potatoes in them."

USEFUL TIPS

USEFUL TIPS

- ✔ For continued fantastic results we recommend that you begin feeding with **Miracle-Gro Pump & Feed Orchid Plant Food** after 4 weeks.
- ✔ Compost should be **kept moist** at all times and not allowed to dry out. Avoid plants sitting in water. Outdoor container plants require frequent watering.
- ✔ Use the compost directly from the bag. **Do not mix with other materials.** Firm only lightly.
- ✔ After **2 or 3 years** most Orchids will have filled their pot and will need re-potting.
- ✔ The needs of different Orchids vary significantly. Consult specialist publications or go to www.lovethegarden.com to make sure you are giving your plant the correct care.

STORAGE INSTRUCTIONS

- ✔ Keep the bag closed when in storage to prevent drying out.
- ✔ Keep away from pesticides.
- ✔ Storage from one year to another may affect performance.
- ✔ Occasionally a white mould appears on the compost. This is **not harmful** to your plants and should disappear naturally.

HEALTH & SAFETY ADVICE

- ✔ Use in a well ventilated place and avoid breathing in dust.
- ✔ Open bag carefully and reseal after use.
- ✔ Wash hands after use.
- ✔ Always wear gloves when gardening.
- ✔ Store in a cool, dry, frost free place, away from sun.

EVERGREEN RESEARCH STATION, UK

Evergreen Research Station is our officially recognised **Research and Development Centre** in Levington, Suffolk. This unique centre is responsible for driving **new product development**, through **process & formulation, physical analysis** and **field biology**. In addition, the team of scientists ensure we maintain our **renowned quality** through on-going **raw material assessment, formulation preparation** and **product trials**.

The results from trials undertaken at the **extensive 19 acre site** in Levington are used to develop new products and to support our unique portfolio across northern Europe. Fertilizers and growing media are both tested here under the protection of a **2,500m² glasshouse** and outside in beds and borders, containers and hanging baskets.
