

PREMIUM Mediterranean & Citrus Special Plants Compost

ROOTED
IN SCIENCE

OPTIMUM pH FORMULA FOR LONG LIFE

Miracle-Gro® Premium Mediterranean & Citrus Special Plants Compost contains an **optimum balanced formula** with the ideal pH to ensure a long life full of flowers and fruits.

IRON FORTIFIED FOR GREENER LEAVES

Miracle-Gro® Premium Mediterranean & Citrus Special Plants Compost is fortified with iron which is a mineral nutrient that is absorbed by roots and the result is that the **leaves become greener**.

14 VITAL MINERALS NPK+TRACE ELEMENTS

Compost contains a unique combination of **14 vital Minerals**. **Nitrogen** is used by plants for lots of leaf growth and good green color. **Phosphorous** is used by plants to help form new roots, make seeds, fruits, flowers and fight disease. **Potassium** helps plants make strong stems and keep growing fast. Additionally, there are 11 more minerals such as iron, iodine, fluoride, copper, zinc, chromium, selenium, manganese and molybdenum which are vital for **maintaining plant health**.

APPROVED BY: ☒ Elaine G, R&D Manager.

HOW
TO USE

POTTING

Place Miracle-Gro Premium Mediterranean & Citrus Special Plants Compost in the bottom of the pot and put the root ball on top of this layer.

Fill in around the edges with more compost ensuring the top feeder roots are covered with 2cm of fresh compost.

Water well and keep in the shade for a few weeks to allow new roots to grow.

♥ **WATERING:** In hard water areas use rainwater whenever possible to maintain the slightly acid conditions of the compost. Allow the surface to dry out between waterings, then water thoroughly but do not allow to stand in water.

♥ **FEEDING:** Citrus trees actively grow all year round. In summer they produce new leaves and flowers and in Winter the fruits ripen. As a result of this activity they need to be fed year round, during the growing season and stop feeding completely during the winter.

♥ From March to September feed every two weeks with a balanced feed such as Miracle-Gro® All Purpose Soluble Plant Food for bushy growth and to prevent fruit drop and leaf yellowing.

♥ **TEMPERATURE:** During winter keep the plants in a cool, but frost-free place such as a cool conservatory, greenhouse or unheated room. Aim for a minimum temperature of 10°.

WHAT
TO GROW

...AND WHERE

♥ Ideal for Mediterranean type of plants like bougainvillea, Palm trees, Orange trees, Lemon trees and Lime trees.

♥ Perfect for use in pots, containers and hanging baskets.

RESPONSIBLE SOURCING & RE-USABILITY

We are actively working on improving the responsible sourcing profile of our compost mixes year on year. Miracle-Gro compost contains forest by-products, carefully processed to help you grow plants that improve your environment and make the world a more beautiful place.

IDEAS ON RE-USING THIS BAG...

HANGING BASKET IDEA...

"You could add some drainage holes in the bottom of the bag, fill with compost and then plant potatoes in them."

GET GROWING...

"Make some drainage holes in the bottom of the bag, fill with compost and then plant potatoes in them."

FLOWER BED TIP...

"Split the bag open and lay down as a weed barrier in your flower beds."

USEFUL
TIPS

USEFUL TIPS

- ♥ Greenhouses and conservatories will usually be too hot for citrus trees in Summer. Move them outside when all danger of frost has passed. Place in partial shade for the first 3 weeks to prevent leaf scorch.
- ♥ Spray the plants daily with plain water to keep them cool and encourage pollination of flowers.
- ♥ For a healthy plant, pot-on every two years into a pot one size larger.
- ♥ Use the compost directly from the bag. Do not mix with other materials. Firm only lightly.

STORAGE INSTRUCTIONS

- ♥ Keep the bag closed when in storage to prevent drying out.
- ♥ Storage from one year to another may affect performance.
- ♥ Keep away from pesticides.
- ♥ Occasionally a white mould appears on the compost. This is **not harmful** to your plants and should disappear naturally.

HEALTH & SAFETY ADVICE

- ♥ Use in a well ventilated place and avoid breathing in dust.
- ♥ Wash hands after use.
- ♥ Store in a cool, dry, frost free place, away from sun.
- ♥ Open bag carefully and reseal after use.
- ♥ Always wear gloves when gardening.

EVERGREEN RESEARCH STATION, UK

Evergreen Research Station is our officially recognised **Research and Development Centre** in Levington, Suffolk. This unique centre is responsible for driving **new product development**, through **process & formulation**, physical analysis and field biology. In addition, the team of scientists ensure we maintain our **renowned quality** through on-going **raw material assessment**, **formulation preparation** and **product trials**.

The results from trials undertaken at the **extensive 19 acre site** in Levington are used to develop new products and to support our unique portfolio across northern Europe. Fertilizers and growing media are both tested at here under the protection of a **2,500m² glasshouse** and outside in beds and borders, containers and hanging baskets.
