BULB FIBRE FORMULA
ENCOURAGES FAST ROOT GROWTH

Miracle-Gro® Peat Free Premium Bulb Fibre Special Plant Compost contains a unique texture that encourages fast root growth and helps bulbs replenish themselves and flower again next season.

3 MONTHS FEED
FEEDS FOR LONGER

Feeds for longer to support your healthy plants growth.

14 VITAL MINERALS
NPK+TRACE ELEMENTS

Contains a unique combination of **14 Vital Minerals**. **Nitrogen** is used by plants for lots of leaf growth and good green colour. **Phosphorous** is used by plants to help form new roots, make seeds, fruits, flowers and fight disease. **Potassium** helps plants make strong stems and keep growing fast and promote flowers and fruits. Additionally, there are 11 more minerals such as calcium, magnesium, sulphur, boron, chlorine, copper, iron, manganese, molybdenum, nickel and zinc which are vital for **maintaining plant health**.

FIBRE SMART™ TECHNOLOGY
PATENTED WOOD FIBRE

The patented **Fibre Smart™ Technology** hollow wood fibres ensure an **optimum balance** of **air** and **water** for **strong roots** to grow **healthy**. Wood fibres are **100% natural**.

APPROVED BY: ☒ Elaine G, R&D Manager.

HOW
TO USE

CONTAINERS
& BASKETS

Partly fill container with compost.

Firmly place bulbs in compost ensuring the bulbs do not touch each other or the container.

Fill the container with more compost, to twice the depth of the bulb.

Water thoroughly and place outside for flowering in spring.

CONTAINERS & POTS: INDOORS

Place containers in a frost-free, cool, dark, airy place, water as necessary.

When shoots are green move to a warmer environment. Leaves should appear 6-8 weeks before bulbs flower fully.

After flowering, place in a light place and water regularly until leaves die. Store bulbs in a cool, dry place until spring and plant in flower beds.

BEDS & BORDERS

Dig a hole 10-15cm (4-6 inches) deep.

Cover the bottom with a layer of compost.

Place bulbs firmly onto compost and fill.

Firm gently and water thoroughly.

IDEAS ON RE-USING THIS BAG...

HANGING BASKET IDEA...

"You could add some drainage holes
and use the bag as a liner for your
hanging baskets."

GET GROWING...

"Make some drainage holes in the
bottom of the bag, fill with compost and
then plant potatoes in them."

USEFUL
TIPS

USEFUL TIPS

- Miracle-Gro® Peat Free Premium Bulb Fibre Special Plants Compost should be **kept moist** at all times and not allowed to dry out.
- Feeding with **Miracle-Gro® Plant Food** after flowering will ensure bulbs produce beautiful blooms again next year.

STORAGE INSTRUCTIONS

- Keep the bag closed when in storage to prevent drying out
- Store in a cool dry place away from the sun.
- Storage from one year to another may affect performance.
- Keep away from pesticides.
- Occasionally a white mould appears on the compost. This is **not harmful** to your plants and should disappear naturally.

HEALTH & SAFETY ADVICE

- Use in a well ventilated place and avoid breathing in dust.
- Wash hands after use.
- Open bag carefully and reseal after use.
- Always wear gloves when gardening.

EVERGREEN RESEARCH STATION, UK

Evergreen Research Station is our officially recognised **Research and Development Centre** in Levington, Suffolk. This unique centre is responsible for driving new **product development**, through **process and formulation**, **physical analysis** and **field biology**. In addition, the team of scientists ensure we maintain our **renowned quality** through **on-going raw material assessment**, **formulation preparation** and **product trials**.

The results from trials undertaken at the **extensive 19 acre site** in Levington are used to develop new products and to support our unique portfolio across northern Europe. Fertilisers and growing media are both tested here under the protection of a **2,500m² glasshouse** and outside in beds and borders, containers and hanging baskets.

Ordinary Garden Soil
Miracle-Gro® Peat Free Premium Compost

GUARANTEED*
GROWS PLANTS
TWICE AS BIG!

*Our scientific trials prove that
Miracle-Gro® Peat Free Premium Compost grows plants twice as big as ordinary garden soil.
