

WHERE TO USE?

Use all around the garden

Our multi purpose compost is ideal for all your gardening uses. Perfect for all stages of plant life, including seed sowing. It has been specially developed, containing essential plant food for 8 weeks, to give your plants a great start.

We strongly recommend using Levington Ericaceous compost for acid loving plants like Azaleas, Rhododendrons or Heathers.

Containers

Ensure that the container has sufficient drainage holes. Then fill with compost. Add your chosen flowers and firm lightly, then water thoroughly.

Hanging Baskets

Line the basket if necessary and part fill it with compost. Insert plants through sides of the basket where possible to ensure a ball of colour. Fill the basket with compost and arrange plants on the top with trailing ones around the sides. After everything is planted, firm lightly and water thoroughly.

Seedlings

Fill the seed tray with compost and level off. Firm lightly and water. Sow seeds following the pack instructions. Cover the seed tray making sure the tray is out of direct sunlight.

Cuttings

Fill the pot with compost, take the cutting (according to the type of plant), water, cover and keep warm.

Beds and Borders

Water the plant thoroughly. Dig a hole twice the size of the root ball. Part fill the hole with a mixture of 50% soil and 50% compost. Ensure the plant is at the same level as in the original pot. Fill in firmly, then water. For best results we recommend using Levington Organic Blend Soil Conditioner.

HOW TO USE?

Instructions for use

Use straight from the bag, it's as easy as that. When filling or potting, firm lightly. Keep the compost moist and do not let it dry out. Do not leave plants standing in water.

Storage instructions

- Keep the bag closed when in storage to prevent drying out.
- Storage from one year to another may affect performance.
- Keep away from pesticides.
- Occasionally a white mould appears on the compost. This is not harmful to your plants and should disappear naturally.

Health and safety advice

- Use in a well ventilated place and avoid breathing in dust.
- Always wear gloves when gardening
- Wash hands after use.
- Store in a cool place, away from sun.
- Open bag carefully and reseal after use.

OUR STORY...

Established in 1967, Levington has been providing expertise, research and innovation into compost for over 50 years. When it comes to compost, Levington has been the gardener's choice for decades.

At our officially recognised research station in Levington, Suffolk, we are constantly innovating and testing for the best combinations of ingredients in compost to ensure your plants are strong and healthy.

WHAT IS IT?

Multi purpose compost

LEVINGTON Multi Purpose Compost contains woodfibres to ensure optimum balance of air & water for strong roots to grow healthy plants. Expanded woodfibres are 100% natural.

Optimum drainage system prevents excess moisture.

NITROGEN (N)	For greener leaves and healthy shoots
PHOSPHATE (P)	For strong root development
POTASSIUM (K)	For fruit and flowers
TRACE ELEMENTS	Essential for all round plant health and disease resistance

Partnering with industry pioneers we are turning 25,000 tonnes of green garden waste into high quality compost every year. Stringent tests ensure that you can grow plants that improve your environment and make the world a more beautiful place.

SUSTAINABILITY

Responsible sourcing

We are actively working on improving the responsible sourcing profile of our compost mixes year on year. Levington compost contains forest by-products, carefully processed to help you grow plants that improve your environment and make the world a more beautiful place.

How much Peat?

We are actively involved in the management and restoration of the peatlands we harvest from.

TIPS

" Split the compost bag open, and re-use it as a weed barrier in your flower beds. "
