

# SUSTAINABILITY

## Responsible sourcing

We are actively working on improving the responsible sourcing profile of our compost mixes year on year. Levington compost contains forest by-products, carefully processed to help you grow plants that improve your environment and make the world a more beautiful place.

## How much Peat?

We are actively involved in helping the management and restoration of the peat land areas that we harvest from.

## Storage instructions

- Keep the bag closed when in storage to prevent drying out.
- Storage from one year to another may affect performance.
- Keep away from pesticides.
- Occasionally a white mould appears on the compost. This is not harmful to your plants and should disappear naturally.

## Health and safety advice

- Use in a well ventilated place and avoid breathing in dust.
- Always wear gloves when gardening
- Wash hands after use.
- Store in a cool place, away from sun.
- Open bag carefully and reseal after use.

# HOW TO USE?

- PLANTING** Shake the bag to distribute the contents. When only planting two plants use the end panels. Delay planting tomatoes until the first flower opens.
- WATERING** After planting, water in using about 4.5 litres (approx. 1 gallon), and then water as necessary to keep the bag moist.
- FEEDING** We recommend feeding with 20ml of Tomorite diluted in 4.5 litres (1 gallon) of water for most crops. Feed hungry plants such as tomatoes under glass once a week.
- SUPPORTING** Avoid piercing the bottom of the bag. Train plants to fan out so that they receive maximum light and air.

CROP	PLANTS PER BAG	START FEEDING WHEN
Tomatoes – under glass	3	The fruit on first truss is pea sized
Tomatoes – outdoor	3	The fruit on second truss is pea sized
Peppers & Aubergines	3	The fruit is the size of a golf ball
Melons	2	The first fruit is swelling
Courgettes/Marrows/Cucumbers	2	The first picking commences

## REDUCE ▶ RE-USE ▶ RECYCLE

**THIS BAG IS RECYCLABLE**
