

WHERE TO USE?

Roses, Trees & Shrubs

Our Peat Free Organic Blend with Soil conditioner is made up of peat free composted material which are high in nutrients. Perfect for roses, and also trees and shrubs.

Sandy Soils

Levington Peat Free Organic Blend Soil Conditioner will improve the structure of your soil by adding humus to help hold moisture and nutrients.

Clay Soils

On clay soil use Levington Peat Free Organic Blend Soil Conditioner to improve the drainage, helping excess moisture drain away, leaving your plant roots healthy.

Weed Prevention

For effective weed suppression a minimum of 5cm (2") of Levington Organic Blend Soil Conditioner is required over the flowerbeds or containers. It should be applied to clean soil and maintained once a year.

Soil Improvement

For general soil improvement, fork a 2.5 cm (1") layer of Levington Organic Blend Soil Conditioner into the top 10cm (4") of soil.

Planting Shrubs

For shrubs and roses mix 5 litres of Levington Peat Free Organic Blend Soil Conditioner with Miracle-Gro® Controlled Release Plant Food (see pack for details). For trees, mix 10 litres of Levington Peat Free Organic Blend Soil Conditioner with Miracle-Gro Controlled Release Plant Food (see pack for details). When the compost mixture has been prepared, dig a hole twice the size of the root ball. Plant using a 50/50 mixture of soil and the prepared compost. This pack is sufficient to plant 10 roses or 5 trees.

Mulching

Use as mulch around your shrubs and flowerbeds to keep in water and suppress weeds. Using a fork or even your hands spread an even layer about 2.5cm to 5cm (1" to 2") of the Levington Peat Free Organic Blend Soil Conditioner over the compost or soil. This pack covers an area up to 2m x 0.5m.

HOW TO USE?

Instructions for use

Use straight from the bag, it's as easy as that. Not for use in pots and containers. Keep the compost moist and do not let it dry out. Do not leave plants standing in water.

Storage instructions

- Keep the bag closed when in storage to prevent drying out.
- Storage from one year to another may affect performance.
- Keep away from pesticides.
- Occasionally a white mould appears on the compost. This is not harmful to your plants and should disappear naturally.

Health and safety advice

- Use in a well ventilated place and avoid breathing in dust.
- Always wear gloves when gardening
- Wash hands after use.
- Store in a cool place, away from sun.
- Open bag carefully and reseal after use.

TAKE CARE
WHEN LIFTING

OUR STORY...

Established in 1967, Levington has been providing expertise, research and innovation into compost for over 50 years. When it comes to compost, Levington has been the gardener's choice for decades.

At our officially recognised research station in Levington, Suffolk, we are constantly innovating and testing for the best combinations of ingredients in compost to ensure your plants are strong and healthy.

WHAT IS IT?

Organic blend soil conditioner

Our soil conditioner is 100% peat free. A blend of composted materials which improves soil structure and drainage of clay or sandy soil. A by-product from the Timber Industry and other composted materials, which would otherwise be waste.

Levington Peat Free Organic Blend Soil Conditioner is a natural alternative to peat. It provides a **valuable source of organic matter which creates a better growing environment** for your plants and flowers.

Also great for improving drainage and suppressing weeds.

Partnering with industry pioneers we are turning 25,000 tonnes of green garden waste into high quality compost every year. Stringent tests ensure that you can **grow plants that improve your environment** and make the world a more beautiful place.

SUSTAINABILITY

PEAT FREE

WE ARE DEDICATED TO PROTECTING THE ENVIRONMENT AND THIS COMPOST IS NOW 100% PEAT FREE

Responsible sourcing

We are actively working on improving the responsible sourcing profile of our compost mixes year on year. Levington compost contains forest by-products, carefully processed to help you grow plants that improve your environment and make the world a more beautiful place.

3,000 HECTARES OF PEATLAND
IN THE LAST 20 YEARS

TIPS

“*Re-use* your compost bag as a liner in your hanging basket, just pierce several holes to ensure drainage.”

“*Split the compost bag open, and re-use it as a weed barrier in your flower beds.*”

*See code of practice at www.growingmedia.co.uk.
