

## WHERE TO USE?

### Use all around the garden

Our water saving decorative bark has excellent moisture retaining properties. It is ideal for decorative purposes and low maintenance gardening. It is an entirely natural by-product of the Timber Industry and the bark has a fresh and natural pine aroma making it very pleasant to handle.

For healthy and beautiful plants in your beds and borders we recommend you use Levington® Multipurpose with added John Innes when planting. Its enriched with a unique balance of nutrients for strong healthy plants.

### Pathways

Levington Water Saving Decorative Bark is an attractive alternative to gravel for garden paths. It provides a stable surface and safe footing, even during rain. Spread a layer 5cm (2 inches) deep over the weed free surface. Covers an area 2.5m x 0.5m at 5cm.

### Beds and Borders

Remove all weeds from the bed or border. Apply when the soil is moist. Spread a layer of Levington® Water Saving Decorative Bark 5cm (2 inches) deep around plants.

## HOW TO USE?

### Instructions for use

Firstly remove all weeds from the bed or border. When the soil is moist, spread a layer of Levington® Water Saving Decorative Bark 5cm (2 inches) deep around the plants.

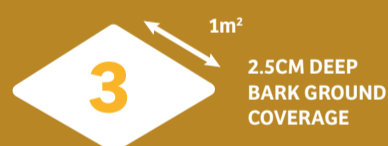

### Health and safety advice

- Use in a well ventilated place and avoid breathing in dust.
- Always wear gloves when gardening
- Wash hands after use.
- Store in a cool place, away from sun.
- Open bag carefully and reseal after use.

## APPROXIMATE VOLUME

### How much is in the bag?

\*1See code of practice at [www.growingmedia.co.uk](http://www.growingmedia.co.uk).

## OUR STORY...

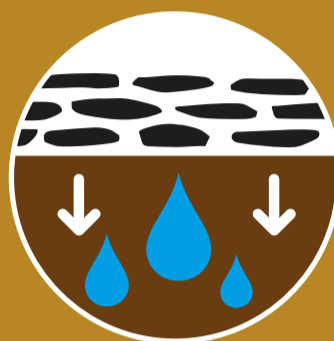

Established in 1967, Levington has been providing expertise, research and innovation into compost for over 50 years. When it comes to compost, Levington has been the gardener's choice for decades.

At our officially recognised research station in Levington, Suffolk, we are constantly innovating and testing for the best combinations of ingredients in compost to ensure your plants are strong and healthy.

## WHAT IS IT?

### Water saving decorative bark

Using Levington® Water Saving Decorative Bark is an excellent way to reduce water loss:

- Reduces evaporation from the soil surface
- Keeps moisture around plant roots where they need it

In order to have a clean and tidy garden, weeds should not be present. Our Water Saving Decorative Bark **reduces weed growth** by preventing annual weeds from growing and new seeds from germinating.

Provides insulation to protect roots from very hot and very cold weather

## SUSTAINABILITY

### Responsible sourcing

We are actively working on improving the responsible sourcing profile of our compost mixes year on year. Levington compost contains forest by-products, carefully processed to help you grow plants that improve your environment and make the world a more beautiful place.
