

The product Roundup® NL Weed Control Ready to Use is broken down naturally in the soil. It can be used to kill a broad range of annual garden weeds including: clover, chickweed, common groundsel, black nightshade, sowthistle, black medick, annual meadow-grass and mayweeds. Suitable for use on flower beds, vegetable patches as well as gravel paths and patios.

**\*THIS CLAIM IS PROVIDED TO HELP DISTINGUISH FROM OTHER FORMULAS THAT MAY CONTAIN GLYPHOSATE.**

## INSTRUCTIONS FOR USE

- FOR USE ONLY AS A HOME GARDEN WEEDKILLER.
- READ ALL SAFETY INSTRUCTIONS BEFORE USE.

### When to use

- Treat annual weeds before the start of flowering to give best results.
- Weeds may show first effects within 2-3 hour of spraying, depending on the weather and the type of weed.
- Use in April to November when the weeds are actively growing.
- For best results apply in warm, dry conditions when weeds are young and actively growing, usually during spring or early summer. Do not apply when there is a risk of frost as weeds will not be actively growing.
- After 3 hours, product will not be washed away by rain. Reduces the need for repeat treatment.
- Repeat treatment if necessary after a minimum of 7 days for larger weeds or where re-growth occurs.
- For deep rooted annual weeds such as black bindweed use Roundup® glyphosate based product.
- It is most effective on young weeds smaller than 10 cm.
- Maximum number of treatments: 4 per year.

### Where to use

- For the control of weeds around ornamental garden plants, trees and in areas not intended to bear vegetation.
- Controls most weeds around the garden. Suitable to use on gravel paths and drives and along fences.
- Can be used to clean up weedy ground before planting vegetables, flowers, bushes and trees, and to renovate overgrown areas.
- Should be applied on a calm, dry day when there is no risk of spray drift onto adjacent desirable plants.
- Do not direct spray or allow spray drift onto cultivated plants and lawn as Roundup® NL Weed Control Ready to Use destroys all green plant parts.

### How to use

- SHAKE WELL BEFORE USE.
  - Although not a requirement, as good practice, we recommend wearing waterproof gloves and gardening footwear.
1. Refill - to refill remove the pump mechanism by unscrewing in an anti-clockwise direction.
  2. Remove the tamper-evident closure on the refill pack. After use, replace the lid of the refill for the next use.
  3. Follow the instructions on the Pump 'N Go sprayer or those supplied by the manufacturer of your garden sprayer. Pour the required content of the refill pack into your clean empty Pump 'N Go sprayer or a dedicated weedkiller sprayer.
  4. Rotate nozzle to 'spray' or 'stream'. Hold the sprayer approximately 50 cm away from the target weed an spray to lightly wet the weeds - avoid run-off. Rotate nozzle to 'stop' after use.
- When spraying large areas it is easier to mark out and measure the area before application.
  - Spray the weeds evenly, ensuring a good coverage of the leaves.
  - 5L to treat 165 m<sup>2</sup>.
  - Apply at 30ml/m<sup>2</sup>.

## SAFETY INSTRUCTIONS

### Protection during/in use:

KEEP OFF SKIN/AWAY FROM EYES. WASH OFF SPLASHES IMMEDIATELY.  
WASH HANDS AND EXPOSED SKIN AFTER USE.

### Environmental protection:

To protect aquatic organisms and non-target plants do not apply on impermeable hard surfaces such as asphalt, concrete, cobblestones, tarmac, paving, patio and other situations with a high risk of run-off. Direct spray away from ponds and other surface water bodies.
