

ROUNDUP® NL Weed Control

is broken down naturally in the soil! It can be used to kill a broad range of garden weeds, including:

- ✓ CLOVER ✓ CHICKWEED ✓ COMMON GROUNDSEL
- ✓ BLACK MEDICK ✓ ANNUAL MEADOW-GRASS

INSTRUCTIONS FOR USE

*** THIS CLAIM IS PROVIDED TO HELP DISTINGUISH FROM OTHER FORMULAS THAT MAY CONTAIN GLYPHOSATE.**

FOR USE ONLY AS A HOME GARDEN WEEDKILLER. READ SAFETY INFORMATION INSIDE BEFORE USE.

SAFETY INSTRUCTIONS

Protection during/in use: IN CASE OF CONTACT WITH EYES, RINSE IMMEDIATELY with plenty of water and seek medical advice. WASH OFF SPLASHES IMMEDIATELY. DO NOT BREATHE SPRAY. WASH HANDS AND EXPOSED SKIN AFTER USE.

Environmental protection: Do not empty into drains. To protect aquatic organisms and non-target plants do not apply on impermeable hard surfaces such as asphalt, concrete, cobblestones, tarmac, paving, patio and other situations with a high risk of run-off. Direct spray away from ponds and other surface water bodies. Risk to non-target insects or other arthropods.

Storage and disposal: KEEP PRODUCT IN ORIGINAL CONTAINER, tightly closed, in a safe place. KEEP AWAY FROM FOOD, DRINK AND ANIMAL FEEDING STUFFS. KEEP PRODUCT AWAY FROM CHILDREN AND PETS. Dispose of empty container in the dustbin. Do not reuse empty bottle for any other purposes. STORE PRODUCT SAFELY. KEEP AWAY FROM FROST.

RISK & SAFETY INFORMATION

TO AVOID RISKS TO HUMAN HEALTH AND THE ENVIRONMENT, COMPLY WITH THE INSTRUCTIONS FOR USE.

- Read carefully and follow all instructions.
- Do not eat, drink or smoke when using this product.
- Keep out of reach of children.
- If medical advice is needed, have product container or label at hand.
- Wash hands thoroughly after use.
- Wear protective gloves/eye protection.
- IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical attention. Take off contaminated clothing and wash before reuse.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/care.
- Do not contaminate water with the product or its container.
- Avoid release to the environment.
- For the UK only: Dispose of contents/container to a household waste recycling centre as hazardous waste except for empty containers which can be disposed of in the dustbin. Contact your local council for details.
- For RoI only: Dispose of contents/container to a household waste recycling centre as hazardous waste except for triple rinsed empty containers, which can be disposed of by recycling or in the dustbin. Contact your local council for details.

MAPP No. 19239 PCS No. 06392

Poisons information: For information or to report a poisoning incident in Ireland, contact the National Poisons Information Centre (01 809 2166), retain the label for reference.

Contains 565.49 g/l Pelargonic acid as an Emulsifiable Concentrate (EC) formulation.

PROTECT FROM FROST

ROUNDUP® is a registered trademark and used under licence.

UFI: 2DDU-HF3J-MS27-S3PY

¹Active ingredient breaks down naturally in soil.

²Visible effects may be observed 2-3 hours after application.

WHEN TO USE

- Use in April to November when the weeds are actively growing and have adequate leaf area to absorb the spray.
- After 3 hours, product will not be washed away by rain. Reduces the need for repeat treatment.
- Reapplication interval = 7 to 21 days, if required.
- For best results apply in warm, dry conditions when weeds are young and actively growing, usually during spring or early summer. Do not apply when there is a risk of frost as weeds will not be actively growing.
- It is most effective on young weeds smaller than 10 cm.
- **Maximum number of treatments: 4 per year.**
- Use the mixture immediately or soon after mixing. If left standing for more than 30 minutes shake the sprayer before using.

WHERE TO USE

- For the control of weeds around ornamental garden plants, trees and areas not intended to bear vegetation.
- Suitable to use on gravel paths and drives and along fences.
- Can be used to clean up weedy ground before planting vegetables, flowers, bushes and trees, and to renovate overgrown areas.
- Should be applied on a calm, dry day when there is no risk of spray drift onto adjacent desirable plants. Do not direct spray or allow spray drift onto cultivated plants and lawn as ROUNDUP® NL Weed Control destroys all green plant parts.
- Treated areas can be re-planted or re-seeded after 3 days.

HOW TO USE

- For use in a pressure sprayer only.
- As good practice, we recommend wearing waterproof gloves and gardening footwear.

- Work out the amount of spray solution needed by using the table included.
- Fill the sprayer with 50% of the amount of clean water required.
- Add the measured amount of concentrate (use the measuring cap).
- Add the remainder of the clean water and mix thoroughly.
- Close the sprayer; put it under pressure; direct the nozzle to the target weeds and spray.
- When spraying large areas it is easier to mark out and measure the area before application.
- Spray the weeds evenly, ensuring a good coverage of the leaves.
- Treat annual weeds before the start of flowering to give best results.
- Weeds may show first effects within 3 hours of spraying, depending on the weather and the type of weed.

ROUNDUP® NL Weed Control concentrate to be added to sprayer containing 0.5 litres of water	Area treated	When to treat
Annual weeds	25 ml	11 m ² When actively growing, usually April - November

Keep children and pets away from treated areas until spray has dried
