

SUSTAINABILITY

RESPONSIBLE SOURCING & RE-USABILITY

We are actively working on improving the responsible sourcing profile of our compost mixes year on year. Miracle-Gro compost contains forest by-products, carefully processed to help you grow plants that improve your environment and make the world a more beautiful place.

STORAGE & ADVICE

- For continued fantastic results we recommend that you begin feeding with Miracle-Gro Performance Organics Plant Food as soon as the first fruits appear.
- Compost should be kept moist at all times and not allowed to dry out. Avoid plants sitting in water.

- Use in a well ventilated place and avoid breathing in dust.
- Wash hands after use.
- We recommend you always wear gloves when gardening.
- Store in a cool place, away from sun.

*Performance Organics from Miracle-Gro is the breakthrough range of **100%** natural gardening products that still grows **twice as big, but organically.***

*Never again having to compromise on efficacy, you will now be proud of not only **what** you grow but also **how** you grow it.*

WHY USE ?

Miracle-Gro Performance Organics planter is a high performance 100% natural and organic compost which is **glorious on plants, plant based but also gentle on nature.**

Miracle-Gro results in an organic form

Slow releasing organic nutrients over 3 months

Plant based by-products from the food industry & enriched with guano**

HINTS & TIPS

- To get the best tomatoes, only plant after the first flower opens.
- Train your plants to fan out so that they receive lots of light and air.

HOW TO USE

- Choose a sheltered sunny spot - it will be difficult to move the planter later.
- Give the bag a shake.
- Cut along the dotted lines to open up the top but be careful not to cut through to the bottom .
- To plant, remove enough compost to make room for the roots of your plant. Place the plant into the hole, cover the roots back with the compost and firm lightly around the plant.
- Soak the soil using about 4 litres of water and make sure it is kept moist.

Certain plants like their personal space. Use the table below to judge how close yours like to get.

CROP	PLANTS PER BAG
Tomatoes, peppers, chillies are pretty friendly	2
Strawberries like to get cosy	4
Courgette & cucumbers like their space!	1

Organic Farmers & Growers is one of the UK's leading organic certifiers, working with producers and processors to ensure their products meet the highest organic standards.
