

UK/RoI Fertiliser Declaration

EC FERTILISER:

NPK (Mg) Fertiliser blend 17-9(3.9)-11(9.1) (2(1.2)) with micronutrients:

Nitrogen (N)	total 17.0%	Boron (B)	0.01%
Nitric nitrogen (N)	7.7%	of which 0.06% water soluble	
Ammoniacal nitrogen (N)	9.3%	Total Copper (Cu)	0.025%
Phosphorus pentoxide (P ₂ O ₅)		of which 0.017% water soluble	
soluble in neutral ammonium		Total Iron (Fe), chelated by EDTA	0.22%
citrate and in water	9.0% (3.9% P)	of which 0.033% water soluble	
Phosphorus pentoxide (P ₂ O ₅)		Total Manganese (Mn)	0.03%
soluble in water	6.5% (2.8% P)	of which 0.008% water soluble	
Potassium oxide (K ₂ O)		Total Molybdenum (Mn)	0.010%
soluble in water	11.0% (9.1% K)	of which 0.008% water soluble	
Magnesium oxide (MgO)	2.0% (1.2% Mg)	Total Zinc (Zn)	0.008%

Harmful to aquatic life with long lasting effects.

pH range for stability of the chelated micronutrients 3-6.5

Storage & Advice

- Keep out of reach of children.
- Wash hands after use.
- Reseal pack after opening.
- Store in a dry place.

We recommend
you always
wear gloves
when gardening.

Why use Miracle-Gro Continuous Release Plant Food?

- Ideal for all plants indoors and outdoors.
- Perfect for pots & containers, hanging baskets, beds & borders.
- Only one application required for the entire year.

Smart Release Feed for 6 Months

The unique coating enables the feed to be continuously released when plants are actively growing.

...carefully balanced to provide plants with essential nutrients required for optimum growth and flowering.

How to use

Evenly scatter granules over the compost or soil around your plants

Gently work the granules into the soil or mix thoroughly into compost

As a guide one handful of granules is approx 25 g

- Avoid over watering or allowing plants to dry out as this can cause damage to the roots.

Plant type

Dosage

Established flowers and vegetables in the garden

Evenly sprinkle 75 g per m² over the rooting area

Established ornamental and fruit trees

Evenly sprinkle 50 g per every m of tree height to edges of the areas covered by the branches

Containers and hanging baskets

Sprinkle 25-50 g per 10 litres of compost before planting. Use lower dose for pot sizes greater than 20 litres or for sensitive plants e.g. impatiens or young plants

New annual bedding plants, veg and fruit

Add 5-8 g (the size of a tablespoon) directly in the planting hole and mix with the soil prior to planting

New trees, shrubs, roses and fruit bushes

Sprinkle 25 g per 10 litres of compost or soil around the roots, before covering with soil

2kg e
