

EVERGREEN® Natural 4in1

Lawn Food, Weed & Moss Prevention

ROOTED
IN SCIENCE

MOSS PREVENTION**

The natural fertiliser strengthens the lawn, which helps it fight moss. The first effects will be rapid and visible after only 2 days, with optimal results in 2 to 4 weeks.

GREENER, THICKER, HEALTHIER LAWN†

Miracle-Gro® Evergreen® Natural 4in1 Lawn Food is pesticide free and contains a unique combination of 100% plant based vital nutrients. Your lawn will be greener in 14 days and the natural nutrients will gradually release for a long lasting feeding.

WEED PREVENTION††

Weed seeds may be present in the soil and can remain dormant until conditions are favourable for germination. Others can be dispersed by the wind and land in the lawn. The unique combination of 100% plant based nutrients will prevent the growth of new weeds.

100% PLANT BASED & RECYCLABLE PACKAGING*

Our packaging is 100% plant based from renewable sources to limit our use of oil based plastic and is recyclable.

INSTRUCTIONS FOR USE

FOR USE ONLY AS A HOME GARDEN LAWN TREATMENT.

Read the label before use.

We recommend the following application schedule on an annual basis for optimum results.

When to use

Complete annual maintenance program to obtain the best results:

1ST APPLICATION

Apply in Spring, before the appearance of new weed seedlings emerge in the lawn.

RE-APPLICATION

Apply at the end of Summer/beginning of Autumn to ensure continued good results.

Do not apply during frost, drought or when heavy rain is imminent.

How much to use

Apply at 40g per m². For best results apply 70g per m². Do not exceed maximum dose rate of 70g per m² as over application may damage your lawn.

How to use

Wear gloves. Spread the fertiliser by hand or using a spreader (Easygreen®, Evengreen®).

If applying by hand, create a criss-cross pattern by spreading half the product from left to right and the rest from top to bottom.

Water the lawn if it does not rain in the 2 days after the application. The granules will gradually dissolve in time.

Spreader Settings

EASYGREEN ROTARY SPREADER

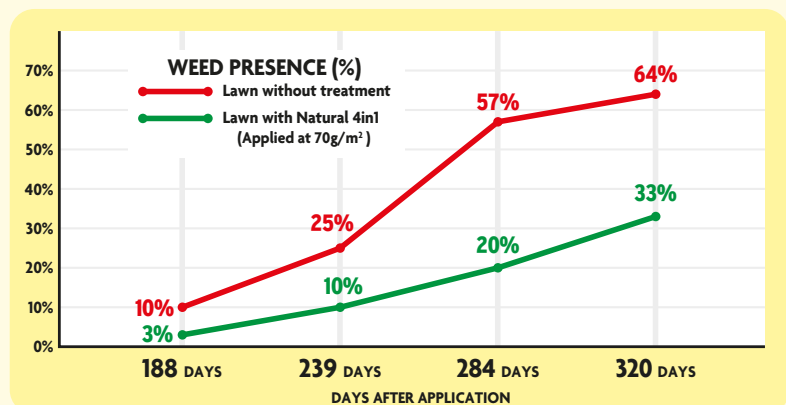

EVENGREEN DROP SPREADER

40g/m ²	32 (Then cover each area twice)	10.5 (Then cover each area twice)
70g/m ²	31 (Then cover each area 4 times)	12.5 (Then cover each area 3 times)

For any other spreaders' settings, you can visit lovethegarden.co.uk

ADVICE

Do not apply to lawns less than 6 months old.

Do not apply during prolonged dry periods (drought), frosty weather or when temperatures exceed 25°C.

Do not apply just before or during sowing. Wait 10 weeks after application before re-sowing or turfing.

After application wait for approximately 4 weeks before re-applying.

TREES AND BULBS & OTHER

Can be used around trees in the lawn, but avoid contact with the foliage.

Can be applied where bulbs are growing in the lawn, provided it is applied after all the bulb foliage has died down naturally.

Avoid drift onto nearby flowers, shrubs, fruit trees, vegetables, ponds or streams.

MOWING

Avoid mowing the lawn for 2-3 days before and after treatment.

WATERING-IN

If no rain falls within 2 days, water the lawn thoroughly so that the lawn food starts to work.

DISPOSAL OF LAWN CLIPPINGS

Do not use the first 4 mowings after treatment for mulching. They will be safe to use after being thoroughly composted for 6 months.

STAINING

Apply this product very carefully as it will cause brown stains on any surface it comes into contact with, e.g., clothing, tarmac drives, paving, decking and kitchen floors. Note this list is not exhaustive. Do not walk on the treated area and keep children and pets away from the area until the product is thoroughly watered in, the granules have dissolved completely and the grass is dry; otherwise it will stick to shoes or pets' feet and be spread outside the treated area. Clean up any spillages.

SAFETY INSTRUCTIONS

What about children and pets?

Children and pets need not be kept out of the treated area once it has been thoroughly watered in, dissolved and dried.

Storage & advice

- We recommend you always wear gloves when gardening
- Wash your hands thoroughly after use
- The product is PESTICIDE FREE and it is CHILD AND PET FRIENDLY. Store in a dry place out of the reach of children and pets.

IMPORTANT INFORMATION

Miracle-Gro® Evergreen® Natural 4in1 Lawn Food will not work on mature weeds already present in the lawn, it will only prevent the growth of new weeds.

Since Miracle-Gro® Evergreen® Natural 4in1 Lawn Food impacts the establishment of new weeds, the effects may not be visible the first 3 months after spreading.

EVERGREEN RESEARCH STATION, UK

Evergreen Research Station is our officially recognised Research and Development Centre in Levington, Suffolk.

This unique centre is responsible for driving new product development, through process & formulation, physical analysis and field biology. In addition, the team of scientists ensure we maintain our renowned quality through on-going raw material assessment, formulation preparation and product trials.

2000m² LAWN TESTING FACILITY

On the 2000m² areas of turf, we trial and develop grass seed products, lawn fertilisers and weed & moss control products all year round. Every product is tested in a spectrum of situations where our products can be used, which secures the high quality and performance of our Lawn Products.
