OUR UNIQUE
UK FACILITY

EVERGREEN RESEARCH STATION, UK

Evergreen Research Station is our officially recognised **Research and Development Centre** in **Levington, Suffolk**. This unique centre is responsible for driving **new product development**, through **process and formulation, physical analysis and field biology**. In addition, the team of scientists ensure we maintain our **renowned quality** through **on-going raw material assessment, formulation preparation and product trials**.

The results from trials undertaken at the **extensive 19 acre site** in **Levington** are used to develop new products and to support our unique portfolio across northern Europe. Fertilisers and growing media are both tested here under the protection of a **2,500m² glasshouse** and outside in beds and borders, containers and hanging baskets.
