EVERGREEN® Natural 4in1

Greens & Thickens Lawns, Prevents Weeds & Moss

MOSS PREVENTION**

The natural fertiliser strengthens the lawn, which helps it fight moss. The first effects will be rapid and visible after only 2 days, with optimal results in 2 to 4 weeks.

GREENER, THICKER, HEALTHIER LAWN†

Miracle-Gro® Evergreen® Natural 4in1 Lawn Food is pesticide free and contains a unique combination of 100% plant based vital nutrients. Your lawn will be greener in 14 days and the natural nutrients will gradually release for a long lasting feeding.

WEED PREVENTION††

Weed seeds may be present in the soil and can remain dormant until conditions are favourable for germination. Others can be dispersed by the wind and land in the lawn. The unique combination of 100% plant based nutrients will prevent the growth of new weeds.

100% PLANT BASED & RECYCLABLE PACKAGING*

Our packaging is 100% plant based from renewable sources to limit our use of oil based plastic and is recyclable.

INSTRUCTIONS FOR USE

FOR USE ONLY AS A HOME GARDEN LAWN TREATMENT.
This product does not include grass seeds.

When to apply

We recommend following this application schedule annually for best results.

1ST APPLICATION

Apply in Spring, before the appearance of new weed seedlings emerge in the lawn.

REAPPLICATION

Apply at the end of Summer/beginning of Autumn to ensure continued good results.

DO NOT APPLY

- During prolonged dry periods, frosty conditions, or temperature exceeding 25°C.
- When heavy rain is imminent.
- On a windy day to avoid drift into beds, borders, ponds or streams.
- On a lawn less than 6 months old.
- Before sowing seeds. Wait 10 weeks after application.

How much to use

MAX 70g **1m²** Minimum individual dose: 40g per square metre.
Maximum individual dose: 70g per square metre.

Leave a **minimum** of 4 weeks between applications.

How to apply SPREADER SETTINGS

EASYGREEN® ROTARY SPREADER

70g/m²

31
(Then cover each area 4 times)

40g/m²

32
(Then cover each area twice)

EVENGREEN® DROP SPREADER

12.5
(Then cover each area 3 times)

10.5
(Then cover each area twice)

To find more spreader settings, you can visit [lovethegarden.com/spreadersettings](https://www.lovethegarden.com/spreadersettings)
BY HAND

Wear protective gloves before hand application. First mark out your lawn and then spread 40g-70g over 1m² in a criss-cross pattern for an even application. Visit [lovethegarden.co.uk](https://www.lovethegarden.co.uk) for further advice.

What happens next

- ✓ Visible results against moss in 2 days with optimum results in 2-4 weeks.
- ✓ Lawn is greener in 14 days.
- ✓ Strengthens & thickens the lawn to fight future moss growth.
- ✓ Prevents the growth of new weeds in up-to 3 months^{††}.

After care

1. Water the lawn thoroughly so the lawn food starts to work.
2. Mow the lawn after 3 days. For best results continue to mow on a regular basis.
3. Rake out dead moss after 2 weeks.
4. If moss & weeds reappear, reapply. Leave a **minimum** 4 weeks between applications.

EVERGREEN® Natural 4in1

Greens & Thickens Lawns, Prevents Weeds & Moss

ADVICE

MOWING:

Avoid mowing the lawn for 3 days before and after treatment.

DISPOSING LAWN CLIPPINGS:

Do not use the first 4 mowings after treatment for mulching. They will be safe to use after being composted for 6 months.

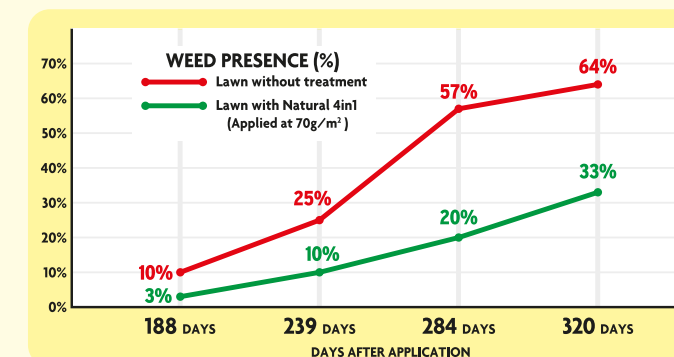

TREES & BULBS:

Product can be used around trees but avoid contact with foliage. Product can be applied where bulbs are growing, after bulb foliage has died down naturally.

STAINING:

This product contains iron sulphate and will cause staining. Do not walk on treated areas until product has been watered in and dried. Avoid contact with clothing, tarmac driveways, paving, decking and kitchen floors. This list is not exhaustive. Sweep up any spillages immediately and dispose of safely.

Miracle-Gro® EverGreen® Natural 4in1 research trial results

EVERGREEN RESEARCH STATION, UK

Evergreen Research Station is our officially recognised Research and Development Centre in Levington, Suffolk.

This unique centre is responsible for driving new product development, through process & formulation, physical analysis and field biology. In addition, the team of scientists ensure we maintain our renowned quality through on-going raw material assessment, formulation preparation and product trials.

On the 2000m² areas of turf, we trial and develop grass seed products, lawn fertilisers and weed & moss control products all year round. Every product is tested in a spectrum of situations where our products can be used, which secures the high quality and performance of our Lawn Products.
