

FAST ACTION ROUNDUP®

Ready-To-Use Weedkiller

Multi-purpose weedkiller, kills annual and deep rooted perennial weeds, including grasses, dandelions, docks, nettles, ground elder, bindweed and thistles. It is inactivated on contact with the soil and is then broken down by soil micro-organisms, to allow replanting.

Instructions for Use

When to use

- Spray at any time when the weeds are actively growing and have adequate leaf area to absorb the spray.
- Rain within 6 hours of spraying reduces effectiveness and repeat treatment may be necessary.
- Apply in calm conditions to avoid drift onto cultivated plants.

Where to use

- Controls most weeds around the garden, e.g. gravel areas, paths, drives, hard surfaces, patios, tarmac, along fences and for edging lawns.
- Can be used to clean up weedy ground before planting vegetables, flowers, bushes and trees, and to renovate overgrown areas.
- Do not use on lawns or other wanted plants. Unless you want to kill them.

How to use

- Although not a requirement, as good practice, we recommend wearing waterproof gloves and gardening footwear.
- Push the security tab until it breaks from the trigger
- Rotate nozzle to 'spray' or 'stream'. Hold the sprayer approx. 50 cm away from the target weed and spray to lightly wet the weeds - avoid run-off.
- Rotate nozzle to 'stop' after use.

Restrictions

- Avoid contact by spray and spray drift with cultivated plants and desired vegetation
- To avoid transfer to lawns and other desired vegetation do not walk into treated areas until the product has dried
- Do not re-use empty bottle

RISK AND SAFETY INFORMATION

Keep out of reach of children • Keep only in original container • To avoid risks to human health and the environment, comply with the instructions for use.

Empty container completely and dispose of by recycling • Dispose of unused product in its container at a household waste site (civic amenity site) Contact local council (local authority) for details •

DO NOT EMPTY INTO DRAINS, SINKS OR OTHER WATER POINTS

- Treat established perennial weeds at the start of flowering to give best results.
- Spray nettles and ground elder when new leaves have unfolded fully in late spring.
- Weeds may show first effects from a few days up to 4 weeks, depending on the weather and the type of weed.
- Leave weeds 7 days before digging or soil cultivation, for the weedkiller to move to the roots.
- Repeat application if necessary, should new growth appear.

This product is a home garden weedkiller for use on unwanted vegetation and areas not intended to bear vegetation. It contains 7.2g/l glyphosate acid (present as 9.7g/l) IPA salt of glyphosate in a ready to use solution. MAPP 18679 - PCS N° 01669
