

ANT CONTROL BAIT STATION

Ant Control Bait Station is a ready-to-use gel protecting against black garden ants and their nests, indoor and outdoor. Results are visible within days. The active ingredients are derived from soil bacterium and chrysanthemum flower extract.

INSTRUCTIONS FOR USE:

FOR USE ONLY AS AN INSECTICIDE

HOW TO USE:

Place bait station in or near ant runs when infestation occurs. Break off each of the four spurs to expose the holes to attract ants to the bait. Ants pick up the bait gel, take it to the nest to feed other ants and the queen, eliminating the entire colony within one to three weeks.

A max of two bait stations in use at any one time.

APPLICATION RATE:

Indoor: Apply 1 box per 15m²
Outdoor: Apply 1 box per nest.

SAFETY PRECAUTIONS:

- Use biocides safely and sustainably. It is illegal to use this product for uses or in a manner other than as prescribed on this label.
- WASH HANDS AND EXPOSED SKIN before meals and after use.
- This material and its container must be disposed of in a safe way.
- DO NOT USE where food, feed or water could become contaminated.
- KEEP IN A SAFE PLACE.
- PREVENT ACCESS TO BAITS by children and animals.

Poison Information: For information or to report a poisoning incident in Ireland, contact the National Poisons Information Centre (018092166), retain the label for reference.

Contains 0.0874% w/w Spinosad and 0.0024% w/w Chrysanthemum cinerariaefolium, extract from open and mature flowers of Tanacetum cinerariifolium obtained with hydrocarbon solvents as a ready to use gel bait (RB).
