INSTRUCTIONS FOR USE

1. Shake before use
2. Add 20ml in 4.5 litres of water and stir well
3. Apply diluted feed to base to plant, avoiding foliage

HOW TO USE

GREENHOUSE: Start feeding weekly when first truss of tomatoes (stem with small green fruits) has pea sized fruits. In soil, use 1.5 litres per plant. Grow bags, use 1.5 litres per plant. Increase feeding to twice a week when second truss has set, but always water plants with clear water in between two feedings.

OUTDOORS: Start feeding every 7-14 days when second truss of tomatoes has set. In soil, use 4.5 litres per two plants. Grow bags, use 1.5 litres per plant.

For pepper and aubergine, reduce rates to 10ml in 4.5 litres of water. Only feed when plants are actively growing, and first feeding not before two weeks after planting. Plants in pots feed by soaking the soil around the base of the plants.

STORAGE & ADVICE:

- Wash hands after use.
- Store out of direct sunlight, in a cool dry place between 5°C and 35°C out of the reach of children.
