

PROFESSIONAL Super Seed Drought Tolerant Lawn

Miracle-Gro® Professional Super Seed
The ultimate 3 IN 1 blend of Seed, Feed and Soil Enricher to give you a drought tolerant lawn

ROOTED
IN SCIENCE

REMAINS GREEN WITH 30% LESS WATER

Saves up to 30% water compared to standard grass seed

TOUGH AGAINST HEAT

Excellent resistance against drought and good greenness over summer. As weather becomes warmer and drier this seed is the best partner for your lawn

CALCIUM SOIL IMPROVER

Contains calcium to help re-balance the soil nutrients.

CONTROL RELEASE FEED

High nitrogen lawn feed to encourage young seedling growth for a thicker, greener lawn.

UK Fertiliser Declaration

Nitrogenous fertiliser 6-0-0:

Nitrogen (N) total 6.0%

Rol Fertiliser Declaration

Low nutrient fertiliser 6-0-0:

Nitrogen (N) total 6.0%

Ureic Nitrogen (N) 6.0%

Spreader settings

For best results always use a Miracle-Gro® Spreader.

For spreader settings visit:
lovethegarden.com/spreadersettings or scan the QR code.

2kg e

66.6% (666g) seed
16.7% (167g) feed (poly-S NPK 38-0-0)
16.7% (167g) gypsum

INSTRUCTIONS FOR USE

Rake

Rake the area to remove all weeds, stones or dead grass. If over-seeding ensure you mow the grass short first. Lightly cover the area with Miracle-Gro® Lawn Dressing. Level and firm by treading the soil.

Shake

Shake the box to mix the seeds. If over-seeding apply 30g/m² (approx a handful) and for new lawns or bare patches 52g/m². Using the handy sprinkler on the side of pack, create a criss-cross pattern by sowing half the seed from left to right and the rest from top to bottom. Gently rake in and tread the seeds into the soil.

Water

Soak with a fine spray and keep soil moist for the next few weeks.

When will I see the results?

In ideal conditions when the soil is moist, grass will start to appear from 9 days. In less favourable conditions allow 10-14 days.

When do I use it?

Apply to your lawn during March to early October, once the risk of frost has passed.

How much will I need?

This pack will overseed an existing lawn of approx 33m² or create a new lawn of approx 19m².

To determine the size of your lawn multiply the length by the width in metres. Alternatively a lawn with 3 by 3 standard fence panels (1.82m width), will cover approx 33m².

All sizes are approximate

See side of pack for spreader settings.

Mowing

The grass can be trimmed when 5-8cm.

Each time you mow, lower blade height a level until it's at 2.5cm. Do not cut more than 1/3 off the growth at any one time.

Children and pets

It's fine to use this product in gardens with children and pets, but little feet can damage developing seeds, so it's best to keep them off the treated areas until the grass has established.
