

Miracle-Gro®

PERFORMANCE
ORGANICS™

PEAT FREE

Fruit & Veg

100% Organic Compost

Performance Organics™ from Miracle-Gro® is the breakthrough range of 100% natural gardening products that still grows twice as big, but organically.

*Never again having to compromise on efficacy, you will now be proud of not only **what** you grow but also **how** you grow it.*

WHY USE?

Miracle-Gro® Performance Organics™ Peat Free Fruit & Veg Compost is a high performance 100% natural and organic compost which is **glorious on plants, gentle on nature.**

Miracle-Gro® results in an organic form.

Slow releasing organic nutrients over 3 months.

Plant based by-products from the food industry and enriched with guano.

Contains 100% natural hollow wood fibres, ensuring an optimum balance of air and water for strong roots.

HOW TO USE?

CONTAINERS & BASKETS

Place a layer of compost in the **base of the pot.**

Tap out the plant from the old pot, loosen the root ball and **place in the centre of the pot.**

Fill the space around the root ball, ensuring the compost level covers all the roots.

Firm lightly, **water thoroughly** and let drain.

BEDS & BORDERS

Dig a hole **twice the size of the root ball.**

Position the plant and **fill with 50% soil and 50% compost** and firm around the base.

Water thoroughly. We recommend using **Performance Organics™ Plant Food** to feed your plant.

We strongly recommend using **Miracle-Gro® Peat Free Premium Azalea, Camellia, Rhododendron, Ericaceous Plants Compost** for acid loving plants like Azaleas, Rhododendrons and Heather.

IDEAS ON RE-USING THIS BAG...

HANGING BASKET IDEA...

"You could add some drainage holes and use the bag as a liner for your hanging baskets."

GET GROWING...

"Make some drainage holes in the bottom of the bag, fill with compost and then plant potatoes in them."

RESPONSIBLE SOURCING

We are actively working on improving the responsible sourcing profile of our compost mixes year on year. Miracle-Gro compost contains forest by-products, carefully processed to help you grow plants that improve your environment and make the world a more beautiful place.

STORAGE & ADVICE

USEFUL TIPS

- For continued fantastic results with the hungriest plants we recommend that you begin feeding with **Miracle-Gro® Performance Organics™ Plant Food** as soon as the leaves begin to pale or the first fruits appear.
- Compost should be **kept moist** at all times and not allowed to dry out. Avoid plants sitting in water. Outdoor container plants require **frequent watering**.

STORAGE INSTRUCTIONS

- Keep the bag closed when in storage to prevent drying out.
- Store in a cool place, away from sun.
- Storage from one year to another may affect performance.
- Keep away from pesticides.
- Occasionally a white mould appears on the compost. This is **not harmful** to your plants and should disappear naturally.

HEALTH & SAFETY ADVICE

- Use in a well ventilated place and avoid breathing in dust.
- Wash hands after use.
- Always wear gloves when gardening.
- Open bag carefully and reseal after use.

ALWAYS USE GLOVES

APPROXIMATE FILL OPTIONS

- As a guide, this bag fills:

MEDIUM POTS
22 CM (9")

LARGE POTS
25 CM (10")

LARGE CONTAINER
42 CM (17")

HANGING BASKETS
30 CM (12")

Organic Farmers & Growers is one of the UK's leading organic certifiers, working with producers and processors to ensure their products meet the highest organic standards.

EVERGREEN RESEARCH STATION, UK

Evergreen Research Station is our officially recognised **Research and Development Centre** in Levington, Suffolk. This unique centre is responsible for driving **new product development**, through **process and formulation, physical analysis and field biology**. In addition, the team of scientists ensure we maintain our **renowned quality** through on-going **raw material assessment, formulation preparation and product trials**.

The results from trials undertaken at the **extensive 19 acre site** in Levington are used to develop new products and to support our unique portfolio across northern Europe. Fertilisers and growing media are both tested here under the protection of a **2,500m² glasshouse** and outside in beds and borders, containers and hanging baskets.
