HOW TO USE

Use every time you are preparing the soil for planting. Sprinkle evenly over the soil and mix in well. Water well after sowing seeds and planting out, especially in dry weather.

During the growing season sprinkle evenly over the soil around plants. Gently work it into the soil surface with a hand fork or hoe without disturbing the roots and water in thoroughly.

Planting out small or bare rooted plants: Sprinkle around plants after planting and gently work into the soil.

Planting bigger plants / shrubs / trees: Mix with soil from planting hole and planting compost and use as a planting mixture.

Apply directly from the pack.

STAINING: This product contains iron sulphate and will cause staining. Do not walk on treated areas until product has been watered in and dried.
