

## HOW TO USE

Use every time you are preparing the soil for planting. Sprinkle evenly over the soil and mix in well. Water well after planting out, especially in dry weather.

For small or bare rooted plants in beds, borders and vegetable plots apply when preparing the soil for planting. Sprinkle evenly over the soil and mix in well. Water well after planting out, especially in dry weather.

For bigger, well rooted plants, bushes and trees mix with soil or compost and use as planting mix. Water well afterwards.

During the growing season: Sprinkle evenly over the soil around plants. Gently work it into the soil surface with a hand fork or hoe without disturbing the plant roots and water in thoroughly.

## WHERE TO USE

**BALANCED MIX OF NUTRIENTS FOR ALL PLANTS.**

**CONTAINS A COMBINATION OF NATURALLY OCCURRING MATERIALS WHICH SUPPLY 3 MAIN NUTRIENTS:**

Organic nitrogen slowly and steadily releases for up to 8 weeks, encourages strong growth and healthy, rich green foliage.

Phosphate slowly and steadily releases to promote vigorous root growth.

Potassium promotes flower production and improves ripening of fruit and vegetables.

## WHEN TO USE

Levington Fish Blood & Bone Multi Purpose Plant Food can be applied prior to sowing or planting and as needed throughout the growing season.

Apply every 6-8 weeks during the growing season from March to the end of August, when plants are actively growing.

Water in well.

**COVERAGE: 35M<sup>2</sup> - 70M<sup>2</sup>**

## SAFETY AND ADVICE

- Only use where there is a recognised need to feed plants.
- Keep away from plant leaves and stems.
- Do not exceed the appropriate application rate. Increasing the dosage may result in damage to your plants.
- Store in the original container in a cool, dry, frost-free place away from children, pets and foodstuffs.
- Always wear gloves when gardening
- Wash hands and exposed skin after use.
- Do not eat or smoke while applying the product.

**ALWAYS USE GLOVES**
