

HOW TO USE

Use every time you are preparing the soil for planting. Sprinkle evenly over the soil and mix in well. Water well after planting out, especially in dry weather.

During the growing season sprinkle evenly over the soil around established plants. Gently work it into the soil surface with a hand fork without disturbing the roots and water in thoroughly.

When planting out small or bare rooted plants, sprinkle around plants after planting and gently work into the soil.

Planting bigger plants / shrubs / trees: Mix with soil from planting hole and planting compost and use as a planting mixture.

WHERE TO USE

PROVIDES A QUICK SOURCE OF NITROGEN, A QUICK ACTING PLANT FOOD THAT CAN BE USED ALL AROUND THE GARDEN TO PROMOTE STRONG, HEALTHY GREEN LEAVES.

ENCOURAGES STRONG LEAFY GROWTH, ESPECIALLY GOOD FOR LEAFY GREEN VEGETABLES, SHRUBS AND TREES.

CURES LEAF YELLOWING CAUSED BY NITROGEN DEFICIENCY.

WHEN TO USE

Use this product whenever you're preparing new beds, when planting out new and young plants, around established plants during the growing season and when you want to stimulate leafy growth.

USEFUL TIP

Remember plants also require other nutrients like phosphorus and potassium. Use this product in combination with sulphate of potash or superphosphate to encourage balanced plant growth.

APPLICATION RATE

ALL USES

35g per m²

VEGETABLE GARDEN

35g per m²

COVERAGE: 42M²

SAFETY AND ADVICE

- Only use where there is a recognised need to feed plants.
- Keep away from plant leaves and stems.
- Do not exceed the appropriate application rate. Increasing the dosage may result in damage to your plants.
- Store in the original container in a cool, dry, frost-free place away from children, pets and foodstuffs.
- Always wear gloves when gardening
- Wash hands and exposed skin after use.
- Do not eat or smoke while applying the product.

ALWAYS USE GLOVES
