

## HOW TO USE

### USE TO MAKE A RICH, DARK COMPOST BY RECYCLING GARDEN AND KITCHEN PLANT WASTE MATERIALS SUCH AS:

Grass cuttings, vegetable matter, egg shells, weeds, leaves, shredded stems and other woody material.

Its rich organic base helps to stimulate bacteria growth and speeds up the composting process.

Home made compost makes a superb soil conditioner, planting compost and mulch.

## WHERE TO USE

**On compost heaps:** sprinkle evenly over 20 – 25cm of composting material and lightly fork in.

**In compost bins:** mix evenly with 20 – 25cm of composting material as the bin is filled.

## WHEN TO USE

This product can be used at any time you are making your own home-made compost. It is especially useful from autumn to spring when temperatures are lower and is a great way to get a new compost heap started.

### PELLET PERFECTION

Low dust and easy to use pellets that help speed up the composting process

## MAKING COMPOST

- Site your compost bin or heap in a warm, sheltered part of the garden.
- For best results it should be in contact with the soil and have a cover. Add a good mixture of garden and kitchen waste, shredding or breaking up larger pieces.
- Do not add large quantities of grass, paper, card or woody branches all in one go.
- Keep the compost moist but not waterlogged.

- Water the heap if the waste is dry or woody.
- Forking over, mixing or turning the contents every few weeks or so will help the composting process.
- The top of the heap should be kept warm and moist by covering it with a lid, plastic sheet or similar covering.
- Do not add cooked food as this may attract vermin.

### APPLICATION RATE

Add 150g - 200g to each 20cm - 25cm layer of garden waste.

Use the higher recommended rate when you have more woody material in your compost.

## SAFETY AND ADVICE

- Only to be used as a garden compost accelerator.
- Do not exceed the appropriate application rate.
- Store in the original container in a cool, dry, frost-free place away from children, pets and foodstuffs.
- Always wear gloves when gardening.
- Wash hands and exposed skin after use.
- Do not eat or smoke while applying the product.

**ALWAYS USE GLOVES**
