

***Nourish & Protect Seaweed Lawn Food is a dual-benefit, pesticide-free lawn food that contains seaweed and as a result, if used regularly, helps improve plants' resistance to frost and heat (abiotic stress).**

INSTRUCTIONS FOR USE

FOR USE ONLY AS A HOME GARDEN LAWN TREATMENT.

Read the label before use. We recommend the following application schedule on an annual basis for optimum results.

WHEN TO USE:

Product feeds for 8 weeks

1ST APPLICATION

Apply 1 or 2 times during spring

REAPPLICATION

Apply at the end of summer/beginning of autumn to ensure continued good results.

After seeding or turfing new lawn: Wait at least 6 weeks before using Miracle Gro Nourish & Protect Seaweed Lawn Food.

After application: Do not re-seed or turf for at least 6 weeks.

HOW TO USE:

Application rate is 15g/m² but for best results we recommend 30g/m².

Can be applied by hand but for best results we recommend using Miracle-Gro® Spreader, for even and easy application.

BY SPREADER For even and easy application, we recommend using one of the Miracle-Gro® Spreaders. See spreader settings below. Water in directly after application.

BY HAND Wear protective gloves before hand application. First spread 15g-30g over 1m² for visual guide, then mark out your lawn for an even application. Water in after application. Visit lovethedgarden.co.uk for further advice.

Do not mow the grass for 2 days after application to allow the product time to begin to work.

HINTS & TIPS

Mowing

Regular mowing will help to create a lush green lawn. You can feed your lawn with Nourish & Protect Seaweed Lawn Food directly after mowing. Do not mow the grass for 2 days after application to allow the product time to begin work.

Watering

Make sure you water the lawn well after application. Additional regular watering helps maintain a green lawn and is vital during dry periods.

Scarifying

Rake your lawn in spring to help remove moss and thatch. Follow this by feeding with Nourish & Protect Seaweed Lawn Food to encourage regeneration and a healthy green grass again in time for summer.

SAFETY INSTRUCTIONS

Children and pets need not be kept out of the treated area once it has been watered in and dried.

STORAGE & ADVICE

- Reseal pack after opening.
- Store in a dry place.
- Wash hands after use.
- We recommend you always wear gloves when gardening

ALWAYS USE GLOVES

IN SCIENCE**
RESEARCHED & TESTED BY
EVERGREEN SCIENTISTS

Evergreen Research Station is our officially recognised **Research and Development Centre** in Levington, Suffolk. On the 2000m² areas of turf, we trial and develop grass seed products, lawn fertilisers and weed & moss control products all year round. Every product is tested in a spectrum of situations where our products can be used, which secures the high quality and performance of our Lawn Products.
