HOW TO USE

CONTAINERS & BASKETS

Place a layer of compost in the base of the pot.

Tap out the plant from the old pot, loosen the root ball and place in the centre of the pot.

Fill the space around the root ball, ensuring the compost level covers all the roots.

Firm lightly, water thoroughly and let drain.

BEDS & BORDERS

Dig a hole twice the size of the root ball.

Position the plant and fill with 50% soil and 50% compost and firm around the base.

Water thoroughly. We recommend using **Miracle-Gro® Peat Free Border Booster** to further enrich the soil.

We strongly recommend using **Miracle-Gro® Peat Free Premium Azalea, Camellia, Rhododendron Ericaceous Compost** for acid loving plants like Azaleas, Rhododendrons and Heather.
