PROTECT FROM FROST

ESTABLISHED 1905
Weedol®

PATH & GRAVEL CONTROL

MAPP: 19266

INSTRUCTIONS FOR USE

FOR USE ONLY AS A HOME GARDEN WEEDKILLER. READ ALL SAFETY INSTRUCTIONS BEFORE USE.

WHEN TO USE

April – November, when weeds are actively growing • For best results apply in calm dry, warm conditions, usually early spring or summer, when there is no risk of spray drift onto adjacent desirable plants • Most effective on young weeds less than 10 cm • This product will not provide long term control of perennial weeds • Don't apply if risk of frost, as weeds will not be actively growing • Reapply if rain falls within 3 hours • Repeat if necessary after a minimum of 7 days for larger weeds or where regrowth occurs. **Maximum 4 applications per year.**

WHERE TO USE

Suitable for use on gravel areas, pathways, permeable patios and driveways. For the control of weeds around ornamental garden plants, trees, and areas not intended to bear vegetation. Don't direct or allow spray drift onto cultivated plants or lawns as this product destroys all green plants.

Gravel paths and drives

Along fences

Around sheds and greenhouses

Around established ornamental garden plants, trees and under hedges (with woody bark)

Ideal for ground clearance before autumn or spring digging

WHY CHOOSE THIS PRODUCT?

- ✓ **KILLS WEEDS AND ACTIVE INGREDIENT BREAKS DOWN IN SOIL NATURALLY**
- ✓ **IDEAL FOR USE ON GRAVEL PATHS, PERMEABLE PATIOS AND DRIVEWAYS**
- ✓ ***VISIBLE RESULTS MAY BE SEEN IN 2-3 HOURS**

It can be used to kill a broad range of annual weeds and grasses, including: clover, chickweed, common groundsel, black nightshade, sowthistle, black medick, annual meadow-grass and mayweeds.

	Area treated	Examples
One tube treats	10 m ²	Clover, chickweed, common groundsel, black nightshade, sowthistle, black medick, annual meadow-grass and mayweeds
Treat annual weeds before the start of flowering to give best results.		

Keep children and pets away from treated areas until spray has dried

Not for sale in ROI

12 x 23 ml e tubes

The pack treats up to 120 m² and each tube treats up to 10 m².

*No Glyphosate claim is provided to help distinguish from other formulas that may contain glyphosate.

UFI: 2DDU-HFJ3-MS27-S3PY

HOW TO USE

SHAKE THE TUBE WELL BEFORE USE

1. Use with a garden sprayer.
2. Fill sprayer with half of the water required. Then snap off (or cut open) the top of the tube and empty into sprayer. Add the remainder of the water and mix thoroughly.
3. Spray weeds evenly to lightly wet leaves, avoiding run-off. Do not walk on treated areas until spray has dried on leaves to avoid transfer to lawns and other vegetation.

4. Once the spray is mixed use immediately. Only make as much as you plan to use within 2 hours.
5. Clean the equipment thoroughly before and after use.

Maximum individual dose:
23 mL (1 tube) per 10 m² in 500 mL of water

Contains 565.49 g/L Pelargonic acid as an Emulsifiable Concentrate (EC) formulation.
