

WHERE TO USE?

Use all around the garden

Our peat free multi purpose compost with added John Innes is ideal for all your gardening uses. Perfect for all stages of plant life, including seedlings. It has been specially developed, containing essential plant food for 6 weeks, to give your plants a great start.

We strongly recommend using Levington Ericaceous compost for acid loving plants like Azaleas, Rhododendrons or Heathers.

Containers

Ensure that the container has sufficient drainage holes. Then fill with compost. Add your chosen plants and firm lightly, then water thoroughly.

Hanging Baskets

Line the basket if necessary and part fill it with compost. Insert plants through sides of the basket where possible to ensure a ball of colour. Fill the basket with compost and arrange plants on the top with trailing ones around the sides. After everything is planted, firm lightly and water thoroughly.

Seedlings

Fill individual pots with compost and level off. Prick out seedlings carefully, put them into the individual pots and firm lightly. For sowing seed we recommend Levington Peat Free Seed & Cutting Compost.

Beds and Borders

Water the plant thoroughly. Dig a hole twice the size of the root ball. Part fill the hole with a mixture of 50% soil and 50% compost. Ensure the plant is at the same level as in the original pot. Fill in firmly, then water.

HOW TO USE?

Instructions for use

Use straight from the bag, it's as easy as that. When filling or potting, firm lightly. Keep the compost moist and do not let it dry out. Do not leave plants standing in water.

Storage instructions

- Keep the bag closed when in storage to prevent drying out.
- Storage from one year to another may affect performance.
- Keep away from pesticides.
- Occasionally a white mould appears on the compost. This is not harmful to your plants and should disappear naturally.

Health and safety advice

- Use in a well ventilated place and avoid breathing in dust.
- Always wear gloves when gardening.
- Wash hands after use.
- Store in a cool place, away from sun.
- Open bag carefully and reseal after use.

OUR STORY...

Established in 1967, Levington has been providing expertise, research and innovation into compost for over 50 years. When it comes to compost, Levington has been the gardener's choice for decades.

At our officially recognised research station in Levington, Suffolk, we are constantly innovating and testing for the best combinations of ingredients in compost to ensure your plants are strong and healthy.

WHAT IS IT?

Multi purpose compost with added John Innes

Levington Peat Free Multi purpose compost with added John Innes provides a **balance** of **nutrients** that helps promote **stronger** roots and **healthier** plants.

Optimum **drainage** system prevents excess moisture.

NITROGEN (N)	For greener leaves and healthy shoots
PHOSPHATE (P)	For strong root development
POTASSIUM (K)	For fruit and flowers
TRACE ELEMENTS	Essential for all round plant health and disease resistance

Partnering with industry pioneers we are turning 25,000 tonnes of green garden waste into high quality compost every year. Stringent tests ensure that you can **grow plants that improve your environment** and make the world a more beautiful place.

SUSTAINABILITY

PEAT FREE

WE ARE DEDICATED TO PROTECTING THE ENVIRONMENT AND THIS COMPOST IS NOW 100% PEAT FREE

RESPONSIBLE SOURCING

We are actively working on improving the responsible sourcing profile of our compost mixes year on year. Levington compost contains forest by-products, carefully processed to help you grow plants that improve your environment and make the world a more beautiful place.

RESPONSIBILITY INDEX
