### HOW TO USE

#### HANGING BASKETS

Line the basket, if required with moss or other liner. Part fill basket with compost. Plant trailing plants around the baskets edge and upright plants in the centre. Fill the rest of the basket with compost, firm lightly and water thoroughly.

#### CONTAINERS & POTS

Place a layer of compost in the base of the pot. Tap out the plant from the old pot, loosen the root ball and place in the centre of the pot. Fill the space around the root ball, ensuring the compost level covers all the roots. Firm lightly, water thoroughly and let drain.

We strongly recommend using Miracle-Gro® Peat Free Premium Azalea, Camellia, Rhododendron Ericaceous Compost for acid loving plants like Azaleas, Rhododendrons and Heather.
