CAUTION

Kills all green plant growth
and prevents seed germination.
Avoid contact by spray and spray drift with
cultivated plants and desired vegetation. To avoid
transfer to lawns and other desired vegetation, do
not walk into treated areas until the product has dried.
DO NOT apply to cultivated areas or lawns unless you want
to kill them. If an area needs to be cultivated allow at least 6
months between treatment/replanting and dig the soil well to
reduce risk of damage to subsequent planting. Where this or
other products containing diflufenican are applied in successive
years, diflufenican will build up in the soil. There is a risk of
damage to subsequent plantings even if the soil is well dug.
