BUG CLEAR™ ULTRA

VINE WEEVIL KILLER

MAPP 15325
PCS No. 02386

BugClear Ultra Vine Weevil Killer gets rid
of vine weevil larvae in two ways:

- 1 **ON CONTACT** - with larvae in the soil.
- 2 **SYSTEMICALLY** - from within the
plant to prevent root damage.

BugClear Ultra Vine Weevil Killer also kills
whitefly, greenfly, scale insects and
mealy bugs. Pesticide resistance in
glasshouse whitefly and some aphids is
widespread. Where resistant pests are
present BugClear Ultra Vine Weevil Killer
is unlikely to give control.

BugClear Ultra Vine Weevil Killer is very
easy to use - simply mix and apply.

INSTRUCTIONS FOR USE

FOR USE ONLY AS A HOME GARDEN
INSECTICIDE.

For use on ornamental garden plants
and houseplants.

The maximum dose must not exceed
60 ml of product per litre of water.

A maximum of 2 treatments may be
applied per year. Only prepare as much
BugClear Ultra Vine Weevil Killer as you
intend to use that day.

READ ALL SAFETY INSTRUCTIONS
BEFORE USE.

WHEN TO USE

Vine Weevil larvae are a major pest of
ornamental plants. They feed on the
roots causing sudden wilting or collapse
and can kill the plants. The main time for
damage from feeding larvae is from July
to October. Killing larvae at this time will
reduce damage to plants and prevent
larvae over-wintering to become adult
weevils the following year. To care for
plants during this time, treat in mid
June and repeat in mid August to
give protection against actively
feeding larvae.

WHERE TO USE

BugClear Ultra Vine Weevil Killer is ideal
for use on flowers, roses and ornamental
plants grown in pots and hanging baskets
outdoors and in conservatories.

BugClear Ultra Vine Weevil Killer has been
shown to be safe on most plants.

It is always advisable to test a sample of
plants, by treating them and leaving for at
least four weeks, before treating a large
or valuable collection.

For control of whitefly, greenfly,
blackfly, scale insects and mealy bugs.

BugClear Ultra Vine Weevil Killer is
suitable for use all year round indoors
and from April to September outdoors.
You should use this product at the first
appearance of insects or symptoms.
If necessary re-apply after 8 weeks.

HOW TO USE

- 1 Shake the bottle well.
- 2 Use the measure provided to mix 60 ml
of BugClear Ultra Vine Weevil Killer
with 1 litre of water in a watering can
or mixing vessel.
- 3 Pour the solution over the compost at
the recommended rate. A litre of
solution treats 10 litres of compost.
Use the guide below to estimate how
much solution to use.

Size of pot	How much solution to use
4 inch (10 cm) diameter	50 ml
5 inch (13 cm) diameter	100 ml
8 inch (20 cm) diameter	400 ml
14 inch (35 cm) diameter	1 litre
18 inch (45 cm) diameter	1.5 litres
Window box or trough	
12 inches (30 cm) long	600 ml

BUG CLEAR™ ULTRA

VINE WEEVIL KILLER

FOR USE WITH A WATERING CAN OR
MIXING VESSEL.

THIS PACK TREATS UP TO 80 LITRES
OF COMPOST.

This product works by Systemic and
Contact action.

WHAT DOES THIS MEAN?

Systemic: is taken up by the roots and
moves within the plant. This way the vine
weevils die as they feed on the roots.
Contact: works on direct contact with the
vine weevils.

**Bugs that are hidden or hard to kill
by contact are more effectively killed
with systemic bug killers.**
