Firm lightly, water thoroughly and let drain.

Part fill the basket with compost.

Plant trailing plants around the baskets edge and upright plants in the centre.

Fill the rest of the basket with compost, firm lightly and water thoroughly.

USEFUL TIPS

- Some plants are hungrier than others so may require feeding earlier. If leaves start to pale this is a sign to start feeding, and we recommend using a **Miracle-Gro® Plant Food**.
- Try to avoid compost in pots drying out, and don't let them sit in water either, roots don't like being waterlogged!
- Outdoor pots and containers might need more water in the summer, so always check first with the 'finger test' – pop your finger about 3 cm into the compost. If dry, get watering. If not, wait a bit longer.
- Sometimes you might see some white mould on your compost. **This is not harmful** to your plants and will disappear naturally.
- For all ericaceous (acid-loving) plants we strongly recommend using **Miracle-Gro® Peat Free Premium Azalea, Camellia, Rhododendron Ericaceous Plants Compost**.
